Miami Roofing Contractors AAA Construction and Restoration Services

Find out how prepared your roof really is to withstand the damaging effects of a hurricane by contacting us for a free roof consultation. Hurricane season is coming, be ready when it hits.

(Newswire.net -- January 10, 2015) Miami,

FL -- Ready or not hurricane season is coming. Can your roof withstand the wind and rains? Get a free roof repair estimate from Miami Roofing Contractors AAA Construction and Restoration Services — certified and insured roofing specialists serving Miami and the communities of Coral Gables, South Miami, Brickell, Pinecrest, Palmetto Bay, Kendall and beyond.

"This time of the year is critical for South Florida homeowners to have their roofs in good condition as hurricanes can hit at any time from now through the end of hurricane season," said President John Walters.

AAA Construction and Restoration Services have a team of highly qualified architects and engineers with extensive experience in flat roofs, shingle roofs, tile roofs, metal roofs, and clay roofs. AAA Construction and Restoration Services provides excellent service by only using professionally trained and experienced technicians to service your roof.

Here's' what AAA can do for you:

- New roof installations
- Flat Roofs
- Shingle Roofs
- Tile Roofs
- Metal Roofs
- Clay Roofs
- Roof repairs
- Expert storm damage repairs
- Re-roofing
- Attic Insulation
- Roofing inspections and consultations
- Commercial roofing services
- Residential roofing services
- Emergency roof repair

Before a hurricane hits:

1. Fix any current roof damage
2. Check for any loose shingles or tiles
3. Consider replacing your roof if your roof is reaching the age of replacement

Get your free estimate today. Hurricane season is coming, be ready when it hits.
