

# DotComSecrets Birmingham Launches New Website For Its SEO Service

Mary Johnson December 28, 2012

SEO and Internet Marketing Services

**Due to negative comments about its previous website, DotComSecrets Birmingham has launched its new SEO website.**

Contact: Brian Parnall

Business Name: DotComSecrets Birmingham

Address:

*20 Clydesdale Road, Quinton, Birmingham, West Midlands, B32 1DP UK*

FOR IMMEDIATE RELEASE (NewsWire.net)

The owner of **DotComSecrets Birmingham**, Brian Parnall advised that people were being negative about his company's website. Brian said "Clients and prospective client said they thought the website was dated, so I decided to go for a total revamp". We were also advised that the old website was 3 years old, and because the company offers website design, the owner thought it best to redesign. The new site can be seen here [www.seowebgeek.com](http://www.seowebgeek.com).

The website is primarily for prospective customers to get a feel of what this business can do for them. We have learned that the business offers such services as [SEO](#), [Internet marketing](#), [PPC Management](#), [Social Media Marketing](#), [Pre-Emptive Reputation Marketing](#) and [Web Design](#). We have also discovered that **DotComSecrets Birmingham**, although primarily offering SEO Services to UK companies, they do also have clients in other countries across the World, including America, Canada and Australia.

After being questioned on the main aims of the website and that of DotComSecrets Birmingham, Mr Parnall replied "We simply want to help businesses increase their revenue and profits by concentrating online marketing around their most profitable products and services. This increased profit can then be re-invested into other online marketing campaigns to ensure that they truly start to dominate their industry".

With a number of search engine optimisation packages, and other internet marketing related services it is clear that this business has it's finger on the pulse with this ever changing industry. What is more refreshing though is that it is really clear that this business wants to help other businesses become successful by utilising the internet and all that comes with it.

DotComSecrets Birmingham has been helping businesses increase profits for over 3 years, where its owner, Mr Parnall, has been involved with targeted website traffic generation for over 12 years.
