Carpet cleaning company has contest to help pets find homes

Upfront Home Services from the Houston, Texas area creates a Facebook contest to help homeless pets find homes. They will donate up to \$500.

(Newswire.net--January 15, 2013) Katy, TX- Texas based cleaning company offers Facebook contest to help homeless animals. Calling all animal lovers to

join a revolutionary endeavor. It is a rarity to see any concern and love for animals in today's fast paced world. Due to the unsympathetic and indifferent attitude of humans an increasing number of animals are losing their habitats and have to live a miserable life, which is nothing less than a nightmare for any animal lover. In such times of apathy, one company has taken a stand for the betterment of animals and has started an initiative aimed at finding safe and healthy forever homes for animals without a home.

Upfront Home Services is behind this considerate effort. Joseph Pais, owner of Upfront Home Services said, "This worthy endeavor came into existence while adopting a puppy from CAP and it is then that they decided to help other animals get adopted and find a safe and happy home for them. And what could be better than social media to unite people in such worthy cause." UpFront Home Services is giving you a chance to join this worthy endeavor and bring a change to the lives of these helpless creatures.

You can also do your bit and contribute in this cause by visiting their Facebook page at <http://www.facebook.com/pages/UpFront-Home-Services/380856458617489> and press "Like". For every Like their Facebook page will receive, they will donate \$1 to CAP, Citizens for Animal Protection.

With an aim to get at least 500 likes on their page, particularly from the citizens of the Katy and Houston, Texas area, they plan to take this initiative even further and increase awareness about such noble causes by uniting as many people as possible. To contribute in this cause or to increase awareness about any other cause, which you feel strongly about, you can visit their website or Facebook page. They have been creating smiles with their exceptional services, now it is your turn to make your contribution count by creating a haven for animals.
