

What Is The Best VoIP Small Business Phone System?

Charles Crabb April 13, 2013

VoIP Small Business Phone

Up first for Small Business, Panasonic recently showcased some of their Award Winning & Innovative SIP Phones for the Small Business Market. Included among these was their SIP Desktop & Cordless Phone System. What makes this phone system so appealing to the Small Businessman is the excellent return on investment of the business. Simply put, there is no installation cost, no hardware to install, only a phone which comes pre-programmed and can be self installed.

(Newswire.net -- April 13, 2013) United States -- Phone Systems are coming out of the dark ages. How? Consider just a couple of the Award Winning Small Business Phone System Solutions available to Small Businesses.

First, lets consider what makes [Panasonic's SIP Phone Systems](#) for Small Business Communication Solutions so desirable? It offers every option that businesses have come to depend on as well as the flexibility of convenient expansion as a company grows. In addition, the audio transmission technologies that have been accumulated by Panasonic over the years, enables this system to deliver clear HD sound for smooth comfortable conversations.

This is due to its wider band width which covers a wider range of the human voice making for a fuller life like sound. And with the advanced speaker design and noise reduction technology, it allows your voice to reach the ear of your customer crystal clear.

Now while the [Panasonic's SIP Phone System](#) for Small Business Communications is State of the Art, sometimes a Small Business needs more, and that is just what "Grandstream Networks Multimedia Phone" does. This is a desktop multimedia phone with a 7" 800 x 480 resistive touch screen that enables the user to make State of the Art Video Conference calls with ease and clarity. While it offers the standards such as Caller ID, Call Waiting and three-way conferencing, you can now, with the touch of a finger, not only make a call, but surf the Web, get the weather, listen to the radio, play games, set the alarm, view a slide show, manage your files, watch a YouTube video and much more.

The quality, the versatility, and the low cost of investment that these phone systems offer for Small Businesses, has been touted as the "wave of the future" for Small Businesses. You can check out these phone systems and what they offer by visiting the information below.
