The website's manager, Donna Rhodes, says Furniture Shopping Tips helps many new families and other visitors find everything to furnish their homes. "FurnitureShoppingTips.com is a good map to all kinds of new furniture for a traditional home, dorm room or outside living space," Rhodes said. "I think a lot of families appreciate our site for providing a gateway to furnishing their new home."

The www.FurnitureShoppingTips.com website gives tips on where to find the best deals on different types of furniture. These various types of furniture include bedroom sets, dining room sets, living room sets, baby room furnishings, office and computer furniture, outdoor and patio furniture, dorm room furnishings, unfinished furniture and other home furnishings.

"Oh yeah, we discuss it all," Rhodes continued. "We talk about everything from your tables, couches, and love seats, to chairs and desks, you name it. You'll probably find everything you need here to have a beautiful home."

In the home furnishing section of the site, some of the featured places to buy inexpensive furniture and lighting are Lamps Plus, Home Decorators Collection, Black Forest Décor and others. The website doesn't actually sell any furniture, it simply refers customers to other stores and websites.
