

UCCC to Give Away iPad Mini for Parking Challenge Contest Winner

Stuart Sykes November 05, 2013

Unipart Car Care Centre (UCCC) has announced a new Parking Challenge Contest. The contestant with the highest score in UCCC's "How Well Do You Park?" contest as of December 31, 2013 will win an iPad Mini valued at 300.

([Newswire.net](http://www.newswire.net) -- November 5, 2013) -- Unipart Car Care Centre (UCCC) has announced an opportunity for one person to win an iPad mini in their new "How Well Do You Park?" contest. The Parking Challenge game is open until 31 December, 2013 and is free to enter on UCCC's website. Entrants who share the contest with friends will also be entered into a random drawing for a mystery prize valued at 50.

UCCC runs many contests throughout the year on their website and Facebook page. The Parking Challenge is a new contest in which entrants compete in an online game to test their parking skills. To become the Unipart Car Care Centre "Parking Champion", contestants "park" virtual cars in a computer game. The contestant with the highest score on the leaderboard when the contest ends will win an iPad Mini worth 300. The "How Well Do You Park?" contest is open to one entry per person, with no purchase necessary. Entrants are required to sign up for Unipart Car Care Centre emails and free MOT reminder service to be eligible to win a prize. All contestants who click the share button on the contest website will automatically be entered into the mystery prize draw. The winner of the mystery prize will be randomly selected; winners of the iPad Mini and the 50 mystery prize will be notified in January 2014.

Outstanding customer service is a company-wide mission at UCCC. Every garage in their network upholds the [Unipart Customer Service Pledge](#), promising to provide top quality work, transparent pricing, value for the cost, and friendly customer care. Each independent car care centre in their MOT network is authorised to carry out repairs on cars that are under warranty, using only certified matching replacement parts. Customers are also invited to review their experience in working with local garages to ensure that the highest standards are always maintained. Many garages offer customers extras such as courtesy cars, collection, and delivery. The chance to win an iPad Mini or other valuable prizes in contests is one more way that Unipart strives to provide a superior customer experience.

The Unipart Car Care Centre network is supported by Unipart Automotive, the UK's largest independent supplier of quality auto parts. For over 40 years, motorists have relied on UCCC for value and peace of mind. In addition to MOT testing, UCCC provides a complete range of car service and repairs for virtually every domestic and import car make and model. Their superior supply chain means that local independent garages in the UCCC network always have quick access to quality replacement parts, enabling them to complete repairs and service in a timely fashion. Customers are encouraged to visit UCCC on Facebook to keep up with other contests, including giveaways of other Apple technology and free MOT service.
