

Payday Loans With a Personal Touch

Dwain Berlin November 07, 2013

Blue Copper Capital, a payday loans company operating in Calgary, Edmonton and Vancouver, was launched with the express purpose of offering a more personal touch for those in need, and now offers loans for a variety of purposes.

(Newswire.net -- November 7, 2013) Calgary, AB -- When Dave Chen started Blue Copper Capital in 2006, it was a direct outcome of his own experiences. Dave had been subjected to the harsh scrutiny and excessive demands of lenders who seemed more concerned for their institutions security and profits than for the needs of customers. Because of that Dave structured Blue Copper Capital in a more customer-friendly manner.

Blue Copper Capital does things differently than other short term lenders to make securing a small loan a little less stressful. Dave's friendly staff will visit you at home, at your convenience. Your needs and the loan application is handled in a comfortable private environment. They usually like to discuss [managing your debt](#) while there.

Taking the Pressure off of the Customer

In addition to payday loans, Blue Copper Capital offers Personal Loans, Trade & Apprenticeship Loans, and cash advances for used automobiles and recreational vehicles. Additionally, you can download a credit application form directly from their website from one of the four loan category pages.

Lower Interest Charges

Blue Copper Capital also offers lower interest rates than most payday loan companies. "Regrettably", Dave Chen says, "the paperwork involved in extending a loan – and the cost to the lender – is the same for small loans as it is for big loans, so short-term [payday loans](#) seem to have a high interest rate no matter who you deal with". However, payday loans rates from Blue Copper are set lower than the maximum allowed by government for this type of loan.

Start-up Loans Also Available

As an entrepreneur, Dave knows how hard it can be to get the money you need to start a new business. If you have a good idea but are not getting the desired response from other lenders, call [Blue Copper Capital](#).
