

Rug Cleaning Tampa Wizard To Challenge Carpet Cleaning Competitors

Andy Curry December 14, 2013

Tampa Rug Cleaning

Increasing complaints force Tampa Rug Cleaning Pros to flush out weak competitors ruining pricey rugs owned by area homeowners. Tampa Rug Pros are determined to bring back confidence in local area rug cleaners.

([Newsire.net](#) -- December 11, 2013) Tampa, FL -- In an attempt to decrease poor service given by alleged rug cleaning businesses within the Tampa area, the Tampa Rug Cleaning Professionals are making a special challenge to other cleaners to restore the faith in region companies for customers.

The owners found a concerning issue for Tampa home owners and felt compelled to guarantee them there are rug cleaners they can trust. The owners said, "We keep hearing questions from new customers about guaranteeing their rugs won't be destroyed. After a little research, we find out they had upsetting experiences with inexperienced companies who just hung out a shingle and claimed they clean rugs." They went on to say, "If someone hangs out a shingle then they better take care of the customer. So we urge all clients to request 'cleaning and damage' guarantees up front and force problem carpet cleaners to offer these guarantees. If a firm is not going to do it, find another that may". For more information contact the [Rug Cleaning Tampa Professionals](#) at 813-300-2121.

Some of the problems which have been occurring are valuable rugs losing their luster. Colorful rugs that were handed down from generations are suddenly useless due to wrong cleaning procedures. Another example is carpets losing their worth by being scrubbed wrong with improper cleansers. Other difficulties experienced are lack of professionalism by employees. Review sites on the web are also showing some companies appear more concerned about being tipped than than taking care of their client needs.

Tampa residents are encouraged to ask in advance for cleaning and damage guarantees before using any rug cleaner business to help eliminate wasting money and time to the rug owners and flush-out businesses unprepared to clean carpeting and other flooring valuables.
