

HVAC (Air Conditioning and Heating) Contractor In Calgary Changing Service Industry

Alex Tretjakov May 24, 2014

AC Specialists

Summer is a perfect time to tune air conditioner and make sure it is ready and able to handle the heat of summer. One thing to look for in the team that you choose is experience. Looking for trained red seal journeymen HVAC mechanics is one way.

(Newswire.net -- May 24, 2014) Calgary, Alberta --

Summer is a perfect time to tune [air conditioner](#) and make sure it is ready and able to handle the heat of summer. Usually finding an HVAC contractor to do the job is not a problem. Typical heating and cooling contractors provide a wide variety of services including:

- Furnace installations
- Hot water tank installations & tank-less heater installations
- [Air conditioner installations](#) , sales and maintenance
- Duct cleaning services
- Furnace tuning and maintenance

One thing to look for in the team that you choose is experience. Looking for trained Red Seal journeymen HVAC mechanics is a great way to ensure that the job gets done right the first time. The Red Seal was established in 1959 and represents a standard of excellence for industry. Through the program, tradespersons are able to obtain a Red Seal endorsement on their provincial/territorial certificates by successfully completing an inter-provincial Red Seal examination.

Climate Change YYC is one such organisation in Calgary Alberta Canada. This team has a combined experience of 35+ years on the job and consists of trained red seal journeyman HVAC mechanics.

Owner [Dean Fleming](#) had a distinguished career in the Canadian military before returning to civilian life. After his career in the military, Dean decided to return to school to re-train for a new career as an HVAC mechanic. He graduated from SAIT and become a red seal journeyman mechanic for heating, ventilation, and air conditioning, as well as a small appliance repair technician.

Dean started Climate Change in 2005 serving both residential and commercial clients with new furnace installations, maintenance services, emergency repair services, professional duct cleaning services, and small appliance repair services.

“Clients can expect professional and on-time service from an individual that takes pride in his workmanship, and is passionate about providing customers with professional heating and ventilation repair as well as installation services. My goals for this company and our customers are to develop a long-term relationship, resulting in being known as the trusted choice for your heating, ventilation, and refrigeration needs.” said Mr. Fleming.
