plastic surgeon in northern va

**Dr. Victoria Suh is the leading plastic surgeon in northern va who is now offering Mommy Makeover, a popular plastic surgery procedure for moms.**

(Newswire.net -- June 13, 2014) Fairfax, VA -- Recommended for any new mom, six months after she's completed her baby's breastfeeding stage, the Mommy Makeover offered at Dr. Victoria Suh Plastic Surgery is an excellent option to help bring a woman's body back to pre-baby status. Allowing for the body to take its time to heal naturally from the stress of pregnancy and childbirth the restorative surgery can enhance what the skin and muscles have done on their own to "snap back" into shape. "Of course we recommend that new moms maintain good physical health and weight before surgery and after. It's also helpful to remember that some effects of childbirth are irreversible. That said, we can go a long way to restore the body beautifully." said [Dr. Victoria Suh, Plastic Surgeon Specialist in Northern Va and Founder of Victoria Plastic Surgery.](#)

Once settled on the Mommy Makeover patients will undergo two cosmetic procedures highly tailored to meet the individual's needs. Procedures include either a Tummy Tuck or an Abdominoplasty with Liposuction, coupled with either a Breast Lift, Augmentation or a Reduction. Patients are put under anesthesia whether that be intravenous or general and the surgeries, each ranging from three to six hours long, can be performed in one or two visits depending on the client's preference and the doctor's advice. Dr. Suh advises on consulting with any of the board certified plastic surgeons in northern va.

Considering that any enhancement procedure should be undertaken with the utmost in understanding Dr. Suh wants her patients to remember that the job of motherhood is the most important job there is complete with many sacrifices in tow. "This particular surgery is a very personal matter and one should really make careful consideration of the emotions involved. Thankfully our staff is ready to field any questions that may arise." added Dr. Suh. [Dr. Victoria Suh is known as the best plastic surgeon master in northern va and throughout Virginia.](#) Dr. Suh offers a complimentary consultation where you ask questions about any procedure by calling 703-424-9352 located in Fairfax Va.
