

New Angle On Weight Loss Via Colon Health

Burt Richard August 10, 2014

Safe & Healthy Choice, LLC launches a proprietary product that leverages natural solutions to colon health as a precursor to weight loss designed to jump start any diet regimen.

(Newswire.net -- August 10, 2014) Wilmington, DE -- Safe & Healthy Choice, LLC has solidified its place as one of the top online vendors of [colon cleanse](#) products with the launch of its new triple-action Total Cleanse. The company just announced that it forged an exclusive marketing and distribution arrangement with a unique, niche colon cleanse product put out by Eden Bible

Blends, LLC.

Scott Talbert, CEO of Safe & Healthy Choice, stated:

"The all-natural product was the ideal solution for consumers prudently desiring to enjoy the benefits of detoxifying and cleansing the body without the potential risks that stem from the use of aggressive cleanses or heavy doses of harsh laxatives."

Since colonics have become popular, if not fashionable, among the more wealthy people in America, the general awareness surrounding colon health and intestinal care has been on the rise. Coupled with a seemingly growing epidemic of colon cancer, the time is right for a safe, gentle, yet effective all-natural solution available to the average individual. Even the most health-conscious individuals out there will approve of Total Cleanse, a product carefully crafted and carefully blended with three different types of plant-based active ingredients.

Maintenance Product Obvious Answer To Invasive Procedures & Laxative Abuse

Gone are the days of abusive doses of high-fiber and excessive laxative intake. Total Cleanse enjoys the beneficial use of fiber, to be sure, but a much more healthy amount of fiber is complemented by both thermogenic and herbal ingredients. Users who are used to abrupt, uncomfortable, and inconvenient cleanses will take peace in knowing that a much more subtle approach is now available. Users report that they no longer fear straying too far from a restroom.

Best of all, users no longer have to dread looking forward to an annual, twice yearly, or even quarterly cleanse. The Total Cleanse product put out by Eden Bible Blends and marketed by Safe & Healthy Choice is specially designed to not only trigger an initial cleansing, but also be taken regularly for maintenance purposes. The product works through the synergistic interplay of its fiber, thermogenic, and herbal ingredients, rather than through a full force assault on the system to trigger a purging. So, users can now easily enter the world of colon cleansing without the dread of an unpleasant experience either initially or periodically.

Special Introductory Offer On Each Companion Product

To celebrate the signing of this exclusive marketing agreement with Eden Bible Blends, Safe & Healthy Choice is running an initial launch promotion on Internet retailer Amazon.com. While supplies last, new customers can get Total Cleanse at an 82% savings for limited time. During this special promotion, a one-month supply of Total Cleanse is just \$7.77. Shoppers only need to enter coupon code: **777PRTC7** during the checkout process.

Even better, shoppers can also pick up the perfect companion product to the colon cleanse by grabbing a bottle of Eden's Last Diet weight loss supplement. Just like the triple action formula in Total Cleanse that avoids "all eggs in one basket," the Last Diet product helps users lose weight by leveraging the top five all-natural weight-loss ingredients. To get that for just \$7.77 also, use coupon code: **7LDPR777**.
