

# Plastic Surgery Clinic In Phoenix Sees Increased Juvederm Customer Acquisition

Rose Antonio October 09, 2014

**G. Robert Meger Aesthetic Plastic Surgery has recently announced an increased in their customer acquisition with Juvederm treatments.**

([Newswire.net](http://Newswire.net) -- October 9, 2014) Phoenix , AZ -- Dr. Robert Meger of Phoenix, AZ, has announced a record increase in Juvederm® Voluma™ XC customers the past 12 months. According to him, the growth can be attributed to increasing awareness of the benefits of cosmetic procedures and how they can be used to improve appearance. Additionally, the cost of Juvederm® Voluma™ XC treatments in Arizona has dropped significantly since the first time it was introduced in the market a few years ago. Juvederm is a procedure that

uses filler to get rid of wrinkles and deep grooves.

Dr. Meger's clinic offers more than just [Juvederm® Voluma™ XC](#) in the Phoenix area; on the menu are breast enhancement, body contouring, facial surgery, Botox, chemical peels, laser hair removal, microdermabrasion and many more cosmetic procedures. It also doubles as a health/wellness center.

According to the doctor, customers don't just come from Arizona. "We are seeing more and more customers from the broader Southwest region. People travel to our clinic from as far as California, New Mexico, Nevada and Utah. We are proud of the fact that many tell us that they heard about us from people who have had procedures done in our clinic in the past. We also have a fairly significant number of repeat clients who are looking to have additional procedures done."

The doctor is assisted by 3 highly professionals who are all qualified to provide cosmetic procedures like [Juvederm® Voluma™ XC](#). Nancy Knoll was a nurse for 30 years and now focuses on the injectable part of cosmetic practice. Gail Gomez has experience working in a hospital and her main area of focus is also on injectables. The third, Beth Hadden, focuses on overall skin and body rejuvenation.

The clinic, in order to attract more customers, offers very appealing finance options. They have partnered with CareCredit to offer clients the option of having body work done and then paying for it in low monthly installments and at no interest.

We talked to several customers who have had work done at the clinic to find out what they thought about the procedure and the care that they received. This is what one of them had to say. "Dr. Meger and his Staff are wonderful. They made me feel secure and worry free from the time I walked in the facility. They are very caring, friendly and professional at the same time. Dr. Meger is a very talented surgeon. I feel great and am very satisfied with my breast they look great thanks to him."
