Coconut oil has become the secret skincare, weight loss weapon for movie stars, pro athletes and well-known health experts.

(Newswire.net -- October 28, 2014) Albuquerque, NM -- There are very few products on the market today that can be

classified as “cures” for both several health and beauty ailments, but virgin coconut oil comes the closest.

Long believed to be harmful due to unreliable studies and misinformation, virgin coconut oil is now used by a plethora of celebrities for everything from skin conditions to weight loss. According to the lifestyle website The Healthy Home Economist and the go-to celebrity news and pop culture site Pop Sugar, celebs who consider coconut oil one of their staple natural ingredients include movie stars Emma Stone, Gwyneth Paltrow, Jennifer Aniston and Angelina Jolie; professional athletes CJ Wilson and Apolo Ohno; reality star Khloe Kardashian; supermodels Miranda Kerr and Gisele Bundchen and television health gurus Jillian Michaels and Dr. Oz.

Utilized in everything from green tea, to stir-fry veggies and as a nighttime lotion, the benefits these celebs reap from consuming coconut oil are quite plentiful, with its most prevalent uses as a moisturizer for skin and hair and a weight loss and metabolism booster. Using virgin coconut oil in cooking is an ideal alternative to other, significantly less beneficial oils, as cultures that have traditionally consumed copious amounts of coconut oil actually suffer the lowest amount of heart-related diseases.
