Hot Tubs for Sale Portland Oregon

Hot Tubs, Portable Spas Dealer in Portland, Oregon Publishes 3 Fix-Up Ideas. Offers Free Hot Tub Test Soaks to Portland, OR Residents.

(Newswire.net -- April 27, 2015) Portland, OR -- Hot Tubs, Portable Spas Dealer in Portland, Oregon Publishes 3 Fix-Up Ideas. Offers Free Hot Tub Test Soaks to Portland, OR Residents. Oregon Hot Tub, has showrooms in Portland, Beaverton, Bend, Wilsonville Oregon and Vancouver Washington.

“Doing just a few simple things can make a home really shine. A lot of people go through a spring cleaning phase every year. However, the focus on a spring spruce up should really start outside the house,” said Sue Rogers, CEO of Oregon Hot Tub. These 3 springtime fix-up ideas are quick and easy solutions that can help everyone living in the house break out of the winter doldrums.

Break Out the Power Washer – Over the cold months when snow and ice cover walk ways and porches, dirt can set in and make everything look dingy. It isn’t necessary to scrub away a winter’s worth of dirt from walks or siding. Getting out the power washer is a quick way to wash away winter and make the outside of the house beautiful and fresh again.

Power washers make quick work of cleaning up sidewalks, wood or cement porches and are a great way to wash off the winter grime from siding. They can be used to wash windows as well, but take care not to put too much pressure on the glass.

Spiff Up the Entrance – Curb appeal is for more than selling a home. A home that looks good when people drive up also helps those living in the home feel good about it. Adding a little splash of color to the entry way, or planting a few flowers along a walkway are both good ways to draw others in and create a welcoming look for the home for spring.

One of the most overlooked parts of the entry is the door. Many times people will spend a lot of time planting flowers, trimming grass and bushes, and cleaning off the walks and completely ignore the old door. A simple and easy fix for a worn out entry door is a quick coat of paint. Most entry doors are wood and perfect for common household outdoor acrylic paint. Choose a color that compliments the siding, or matches the trim for a sophisticated look, or pick a bold color for just the door that will make a statement to the world.

Add a Portland Hot Tub – The backyard can be just as important as the front when sprucing up the home for springtime. Make sure there is plenty of comfortable furniture outside on the patio or in the yard, so everyone can get outside and enjoy the great weather. Adding a hot tub is one of the easiest and most alluring ways to create a backyard oasis that everyone will want to enjoy. Water is a natural attraction for people of all ages, and a hot tub is simple to maintain and small enough to fit in any space.

Hot tubs also provide many therapeutic qualities. Whether it is to soothe the sore muscles of the young athletes after sports activities, workout the stiffness from elderly family member’s arthritic joints, or simply wash away the day’s

tension after work, a hot tub is an all-around solution for pleasure.

“To celebrate springtime, Oregon Hot Tub will be providing free hot tub and swim spa wet tests for the entire month. We do recommend however that people wanting to schedule their free 30-minute wet test call us ahead of time to reserve their spot,” said Sue.
