

# New Copper Fit Knee Sleeve Released for Arthritis Patients

Monika Allen July 17, 2015

New Copper Fit Knee Sleeve

**G7-Solutions has released their brand of knee sleeves on Amazon, claiming that it can be used by patients suffering with arthritis.**

([Newswire.net](#) -- July 17, 2015) Tby, Tby -- The product is said to prevent or relieve muscle stress, joint stiffness and enable speedy arthritis recovery.

"I got this for my husband. He has lot of problems with his joints. He has arthritis really bad in his knees, ankles, and hips. We have tried many different things to try and help with his pain," said Lucy Birt, in her review of the sleeve. "He wore the knee sleeve to work today and called me to say his knee hasn't felt this good in years."

The compression provided by Copper Fit Knee Sleeves increases blood flow, reducing inflammation and provides warmth for the knee. Osteoarthritis is characterized by pain and swelling and the [copper fit knee sleeves from G7-Solutions](#) have been found to decrease both conditions by several users.

"Purchased this copper fit knee sleeve for my daughter, who suffers from arthritis and lupus which affects her joints. She states that the fit is really good, no sliding or bunching occurs - you really forget you are wearing it," said Colleen Babich, another verified Amazon customer.

The sleeve is easy to put on and made of a breathable copper nylon and spandex blend. The blend absorbs sweat and does not emit an odor, making it hygienic and able to be worn everywhere without fear of an odor or itching. It is also, therefore, comfortable once the right size is purchased. [G7-Solutions' Copper Fit Knee Sleeves](#) are available in small, medium, large and extra-large.

The product is currently available on Amazon, now at a reduced price, and each purchase of the sleeve comes with a full money back guarantee. G7-Solutions also manufactures copper-infused compression sleeves for ankles and calves.
