A few of the recent reviews left on the Amazon Marketplace include that of Florian Grabis, who stated: "Purchase these if you use a car seat or booster seat! It will certainly help prevent indenting your seats and avoid any additional damage. Easy clean up as well if your kid spills anything on the seat." Cedar L, a verified Amazon Marketplace purchaser, likewise said that the product keeps the seats protected as promised, while including: "An added perk is that any crumbs and other debris that fall through the car seat are captured by the seat protector instead of disappearing into the cracks."

Neil stated that parents just loved the appearance of the seat cover, and how it gripped to fabric and leather seats, helping to make sure they stay in place. He added: "They feel that their children are more safe and secure since the seat covers are thin and long lasting which means it is in closer contact with the child seats. Additionally, the pockets offer extra storage that helps arrange other kiddie car essentials." One US mom has said in her 5 star review: "Really strong, nice quality product. Love the extra pocket at the bottom so my children can keep books and little toys. Love the big size and that it doesn't slide around on my leather seats. I'm using one under a convertible car seat and one under a backless booster, and it stays put really well. Extremely recommended!"

In other [Amazon feedback evaluations](#), vehicle owners have revealed their gratitude for how the seat covers safeguard their precious leather seats from scratches as the corners don't rub directly against the seat, with one validated purchaser stating: "It perfectly conceals some wear and tear and is even supported by a lifetime no-hassle, complimentary replacement warranty. With youngsters around, the seat protectors offer them some peace of mind, too." Kelli, a mom of 2, stated: "With a brand-new automobile and 2 children in car seats/boosters, we wanted to take as many precautions as possible to safeguard our seats. These seat covers have actually been wonderful. They completely cover under both a harness car seat and a high-back booster, and they are easily eliminated if cleaning is needed. I really like how they go down on the front of the seat bottom - defense from dirty sneakers and muddy boots, too. We have actually been using them about 5 months now. I would highly recommend this item."
