NutriMost Sarasota, which has already helped 191 people lose more than 6,000 pounds, plans to open a new clinic in Lakewood Ranch in early 2016

(Newswire.net -- December 30, 2015) Sarasota, Florida -- NutriMost Sarasota, which already has helped 191 people lose 6,119 pounds of fat since June, is planning to expand into Lakewood Ranch after the first of year.

That's more than three tons of fat lost by people who have gone on the NutriMost Ultimate Fat Loss System.

Now, because of overwhelming demand, Dr. Sean Stringer, the functional medical practitioner who owns and operates NutriMost Sarasota and BodyMind Wellness Centre, says he will be opening a new clinic in Lakewood Ranch sometime in early 2016.

"I love knowing that we are helping people get healthy in a very short time and the side effect is that they lose weight and are able to keep it off," said Dr. Stringer, who brought the NutriMost Ultimate Fat Loss System to Sarasota in June. "We are helping people eliminate toxins; balance hormones, neurotransmitters, and nutrients; and get people feeling and looking better."

With the NutriMost system, Dr. Stringer said, "we do all of this without drugs, hormones, shots, surgeries, pre-packaged meals, or exercise.

"We have figured out how to shut off the fat storage switch and turn everyone into a fat-burning blast furnace," he said.

Dr. Stringer understands that many people have given up trying to lose weight because of the yo-yo effect they've been on for their entire lives. "They try a diet and lose weight but six months later they gain even more weight back. It's depressing."

But a recent study finished earlier this year showed that the NutriMost Ultimate Fat Loss System has a three-year success rate of 95 percent.

"Out of nearly 50,000 participants 95 percent of them stayed [within two pounds of their final weight-loss weight](#)," Dr. Stringer said. "That's incredible! No other program can boast those results."

It is this overwhelming response to NutriMost Sarasota that has prompted Dr. Stringer to open a clinic in Lakewood Ranch within the next several months. "Now, we will be able to help and treat people in Manatee County and further north who had trouble driving down to our Sarasota office."

"It feels great!" he said. "This has been my goal since I decided to become a doctor, but it has become my life mission since I lost my wife to cancer eight years ago."

For more information, visit Dr. Stringer at the Sarasota office, located at 1999 Lincoln Drive, Suite 202, or call him at 941-208-3223.

About NutriMost Sarasota

NutriMost Sarasota offers the NutriMost Ultimate Fat Loss Program which allows people to lose 20-40 pounds in 40 days.
