Freddie and Sebbie's brand-new stainless-steel drinking bottle smashes targets as it is awarded a shocking 4.9 star average client rating on the Amazon Marketplace after just one month...

(Newswire.net -- March 10, 2016) Las Vegas, Nevada -- During the announcement of Nevada-based accessory brand Freddie and Sebbie's latest product launch, it was revealed that every one of their 23 family accessories has currently been awarded 4+ stars by consumers for the quality, effectiveness and customer service provided by the Amazon

store.

Speaking on behalf of the brand, business representative Neil Speight specified: "We created the stainless steel water bottle, because we noticed a huge space in the market for high quality bottles designed for people on-the-go for under \$10. We were surprised that the market wasn't flooded, but often it's the simple things that get missed. As a result, we have actually developed a unique item that has actually received over 50 4+ star evaluations in the last month alone."

Their stylish-yet-simple water container is created to keep beverages cold for up to 12 hours at a time, while its integrated Carabiner securing system makes it ideal for usage on-the-go. The item description on the Amazon Marketplace has actually also mentioned that its leak-proof design and hard 18/8 stainless-steel exterior is guaranteed to last a life-time, and that Freddie and Sebbie's no-hassle money-back lifetime assurance is packaged with every single purchase.

100% of clients have rated this item with a 4+ star evaluation, shooting this item to one of the highest rated in its category. One Amazon-100 customer, Jewel, said of the product: "If you are trying to find a solid, heavy duty water bottle, then this is the ideal bottle for you! Not only does it have a large 27 ounce holding capability, but the bottle is made from insulated stainless steel! I truthfully can not see how this bottle could possibly break. It is really strong and extremely long lasting! This bottle would be terrific for outside experiences! I like this bottle for hiking (more like long walks in the woods for me!). It hooks right onto the backpack for easy access and does not get damaged if the bottle hits trees when I am strolling. Extremely well made! I am happy with this water bottle!"

Another Hall-of-Fame reviewer D.B said of the item: "I have used quite a variety of Freddie and Sebbie items and to be honest, I have actually been [extremely happy](#) with all of them... They offer quality products at very affordable costs... Very much a class act. This is a well-made and sturdy bottle and other than tossing it repeatedly against a stone wall or running it over with the truck, I do not see this thing breaking anytime soon. The water does not get that 'container taste' you so often get in like products. Sometimes the bottle will roll about on the floor of the truck/car and there is absolutely no leakage."

More thorough product descriptions and insulated water bottle evaluations by North American consumers are available to view on Freddie and Sebbie's popular Amazon.com store, or website, freddieandsebbie.com.
