Top 10 Games You Must Try

L. White September 18, 2017

Video games can create an unforgettable experience, the ones that change our entire view of reality. The following games are ones that every person should try in their lifetime.

(Newswire.net -- September 18, 2017) -- Video gaming is one of the fastest growing markets today, and the variety of games can cater to any taste. However, there are games that create an unforgettable experience, the ones that change our entire view of reality. These are the ones that every person should tryin their lifetime. Let's take a look at some of the greatest video games of all time.

The Best 10 Games You Must Try Before You Die

1. StarCraft. StarCraft is one of the best real-time strategies of all times. The epic battle of 3 extraterrestrial races offers both the excitement of action and puzzles and the pleasure of customizing your characters.

2. Dead Space. One of the best new horror games. Based in the 26 th century wrecked spaceship filled with flesh-eating monsters, the gameplay offers a truly chilling experience of survival, with a sequel and a prequel that were equally commercially successful.

3. League of Legends. The most massive and widely popular Lucky Pants Bingo online review is in online battle arena for multiple players, and the hit of the esports industry with massive million-dollar prize pools. It is available to play free of charge, so it is definitely one to try.

4. Grand Theft Auto. The most brutal gaming franchise that will allow you to wake the monster in you: crush cars, murder people and rob banks, no deposit free bonus and get away with it. This is probably why it has gained such a wild popularity worldwide.

5. Silent Hill. Silent Hill is a classic example of psychological horror and survival horror game genres. A city of Silent Hill that brings your worst nightmares to life offers an exciting monster-fighting and riddle-solving gameplay.

6. Final Fantasy. The most popular anime-style role play game with the unbelievable 85 million copies sold worldwide. The visual effects and music are incomparable.

7. Halo. Halo is arguably the best sci-fi game in the genre of real-time strategy, often compared to Star Wars for the immensity of the universe it has created.

8. Mario Cart 8. This series of the Mario Kart franchise is the most appealing race game for any age, providing authentic auto simulation experience with 3D graphics and high-quality sound effects.

9. Call of Duty. It's a thrilling first person shooter based around the topic of World War II. There are 13 main games in the series, and Guillermo del Toro is its huge fan!

10. Fallout. Fallout is the best post-apocalyptic role play game in a society ruled by anarchy after a nuclear war. The most exciting games are the new versions in the genre of MMORPG.

All these games represent different genres in their best embodiment, and thus, they will appeal to you even if you are not a big fan of the genre itself. Enjoy!
