

Tips to Save Money When Traveling

Saul Rosen May 09, 2019

One of the best ways to save money when we want to travel is to plan in advance and compare prices of accommodations and transport.

([Newswire.net](https://www.newswire.net) -- May 9, 2019) -- During the months leading up to the summer, a lot of people start planning their holiday. Currently, the [Yudonpay app](#) helps more than 600,000 people save money at the time of booking and going on holiday.

Below are some tips that anyone can put into practice when travelling:

Plan the trip in advance

One of the most important things to save money when we want to travel is to plan in advance and compare the prices of accommodation and transport. To do this **we can consult travel comparators** such as Skyscanner, KAYAK or Momondo, among others.

If we are going to fly and we need accommodation, it is advisable to **compare the amount of money that would be paid for the flight and accommodation in the same package or separately** because packages are not always cheaper.

If, on the contrary, we travel by car, we should plan the routes well so as not to do more kilometers than necessary and use less fuel.

Moreover, if we are going to **travel with pets**, it is essential to compare the different types of accommodations that allow pets. If it is by plane, we must make sure that the airline accepts them. Also, it is a good idea to bring all the accessories the pet requires.

Exchange the currency

To travel abroad, to pay and in order not to be charged commissions, it is advisable to **carry cash**. However, if we do not want to carry a lot of money, we can **use checks, pay with our mobile or withdraw money at ATMs with VISA or Mastercard**. However, with this last option, we should be careful and ask our bank about the conditions and fees we could be charged for using the card abroad.

Pack the suitcase thoroughly

It is necessary to stop and think about what we will really need. It is advisable to bring all the things that we are going to use. Therefore, it will not be necessary to buy at the destination.

Organise meals

If we really want to save money, it is essential to contemplate **the option of not having all the meals in restaurants or street stalls** and go to the supermarkets.

Participate in free tours

To discover a city at a good price, it is a good idea to choose the option of a free tour. Moreover, if you want to get to know other places that require paying to enter more in depth, it is advisable to **plan what places you want to visit** and check how much they cost and if buying the ticket in advance or online is cheaper.

How to save money with Yudonpay?

With [Yudonpay](#) we digitize many **loyalty cards of airline clubs, petrol stations, restaurants, OTAs**, etc. In addition, this allows us to **enjoy promotions and exclusive discounts** offered by the clubs. Therefore, on every trip we take within **Spain, Mexico** or the **UK**, there are many opportunities in which we can save and make use of virtual loyalty cards.

About Yudonpay

Yudonpay - available on iOS and Android - is the app that has revolutionised the world of loyalty clubs. It gathers all loyalty cards in the one single virtual space to be used when shopping. It also shows points balance in real time and how and when to redeem them. Yudonpay includes a promotions section organised by brands which encourages users to collect more points. If there is a loyalty card not currently included in Yudonpay, it can be requested directly from the app. Start saving money, time, and effort gaining rewards with Yudonpay. A new era of smart savings when shopping.
