We get alot questions asking if David Wood Empower Network Scam ??

It is definitely not a scam, because David Wood Empower Network has paid out over \$30 MILLION dollars in their first 15 months (probably well over that amount by the time your reading this). There's a simple reason for why that is.. because it works!

David Wood Empower Network with BIM will work for you ??

Only you can make that decision and that only if you take action! They are paying out HUGE amounts everyday to people just like me that know how to make money with their company.

Notice how Empower Network was founded 14 months ago. Through that short amount of time, they've paid out more money to more people then anything anyone has ever seen. I don't know of any system or program that has paid out over \$30 million dollars in commissions.

What's amazing is how many people are searching to get a piece of the pie of this potential billion dollar company.

Why Big Idea Mastermind ?

At BIM, we are here to help you create realistic \$5,000 per month income within 30-60 days and then double it in the next 60. That's our goal.
