Crowds swarm to buy pure Garcinia Cambogia HCA Extract (GCE) as it is being promoted in the health industry as being one of the easiest and most effective ways to naturally lose weight. Before purchasing GCE experts recommend that the labels on the bottles be carefully studied.

(Newswire.net -- May 3, 2013) Houston, TX -- Learning where to **buy pure Garcinia Cambogia HCA Extract** is easy; a simple search on Google will pull up hundreds of retailers. But knowing where to buy the hottest weight loss breakthrough from a source that can be trusted can

be a more difficult task. **Garcinia Cambogia Extract (GCE)** is being promoted in the health industry as being one of the easiest and most effective ways to naturally lose weight. The extract, derived from an indigenous Indonesian fruit, is safe according to doctors and recent medical studies. That, however, of course presumes that the extract being taken is pure and safely formulated.

Before purchasing GCE experts recommend that the labels on the bottles be carefully studied, checking the ingredients, the location of manufacturing, and the percentage of HCA (the powerful part of the Garcinia extract that makes weight loss and other health benefits a reality).

"It's important that the product you are purchasing has no fillers or artificial ingredients," says the president of **Elite Gold Solutions** (EGS), a popular online health supplement company. "**Garcinia Cambogia HCA Extract** is one of our top sellers because our formulation contains 60% HCA (doctors recommend at least 50%), is totally vegetarian, and is processed right here in the United States in our GMP certified and FDA registered facilities. Quality, consistency and purity are of utmost importance in delivering a superior product."

Above all, potential buyers should always make sure that when they **buy pure Garcinia Cambogia HCA extract** the company they are purchasing Garcinia Cambogia from is a trustworthy source.

"Creating and selling health supplements is easier than most people think. Unfortunately, some companies and sellers out there put their customer's well-being second to making a quick buck off of a sub-par product," laments (EGS) president.

Thankfully, there are many retailers that sell quality products, from **buying pure Garcinia Cambogia HCA extract on Amazon** to local health stores, helping people across the globe enjoy improved health and weight loss. Simple research and a thorough check of the label and ingredients will protect GCE enthusiasts from buying a product that could potentially be ineffective and even unsafe.
