

CCTV Installations Will Protect Your Business in Los Angeles

Bryan Scott July 17, 2013

CCTV Installation Catches Los Angeles Criminal

According to a recent survey conducted by crimeprevention.gov, businesses utilizing CCTV installations reported a 70% reduction in inventory loss.

(Newswire.net -- July 17, 2013) Los Angeles, CA -- Now that surveillance system technology has dropped significantly in price, and are not complicated to use or maintain, a lot more businesses are deciding to have them installed on site. A report by

crimeprevention.gov states that installing a surveillance camera system in your business will help to deter burglaries, increase employee productivity, and let you monitor your workers remotely.

The trend could be attributed to the Los Angeles Sheriff's Department reporting over two million property crimes for 2012, which is an increase of 4.31% from the 2011 incidents. Business owners see a chance to protect their assets and deter crimes from being committed with a minimal investment in cost and time.

Many local companies specializing in security video camera systems and installations give no cost consultations to help you select what type of equipment is best suited for your situation in order to fully protect your business, as well as provide training on proper use of your new monitoring system.

We contacted Los Angeles CCTV Installations, a professional security company with over 30 years of experience, specializing in wireless surveillance camera installations for their expert opinion on the subject. They said, "CCTV installations are one of the best ways to protect your business, not only against theft, but also to ensure employees are treating customers well and performing their jobs as expected. Some of our clients have told us overall productivity had gone up by 30% in just the first month, which doesn't surprise me. Our technicians are all licensed and insured to perform installations and ensure all equipment is functioning properly and covering all vital areas of your office"

If you are thinking about a security camera installation for your business [Los Angeles CCTV Installations](#) is offering a no cost consultation and free multi-location remote viewing software (with most regular DVR/NVR models) included with installation. To schedule your consultation and protect your business today call (213) 455-5282 ext. 700
