

# Emergency Plumbing Services for Lower Mainland BC

Dwain Berlin November 09, 2013

[Mr. Rooter Plumbing](#)

Should you find yourself the unfortunate victim of a plumbing or heating emergency in British Columbia's Lower Mainland, Mr. Rooter of Vancouver is the only name you need to know. They offer fast, expert repairs 24 hours a day, 7 days a week.

([NewsWire.net](#) -- November 9, 2013) Vancouver, BC -- Mr. Rooter's staff of professional technicians can handle any emergency heating or plumbing problem throughout the Greater Vancouver area from White Rock to Horseshoe Bay and the Tri-Cities.

On call at all times, emergency service personnel are fully trained in everything from unclogging drains to repairing faulty radiant floor heating systems. Each service vehicle is stocked with a comprehensive selection of parts to resolve almost any problem in only one visit.

Mr. Rooter employees undergo extensive background checks before beginning work with the company, and are licensed in all aspects of plumbing and heating services including wet basements, perimeter drainage and furnace repair. Fully insured for your protection, we are driven to do the job to your satisfaction.

## Professional Plumbers

Whether we are called to your home or place of business, our technicians demonstrate their respect for your environment by using drop cloths and shoe protectors and by cleaning up after the job is done. And when our technician leaves your premises, you can rest assured that the work has been done right the first time and is fully guaranteed for both parts and workmanship.

Something we have become famous for is the free water pressure inspection we provide at every home we visit. In Vancouver BC the city is fed by mountain water which creates pressure from the gravity. If water pressure is not regulated it causes problems. We alleviate that by replacing faulty pressure valves when needed.

## We Have You Covered

With trucks and technicians available from Whistler to Coquitlam and Surrey, our emergency service teams can respond to your needs at a moment's notice, with no overtime charges, ever. Our highly-skilled plumbing and heating professionals are on call at all times.

Our focus of providing quality plumbing service and products combined with honesty has made [Mr. Rooter Plumbing](#) the first choice of many residential and commercial clients North America wide.
