

# Goodyear Chiropractor offers SUPARTZ Joint Pain Therapy Treatment to Patients

E-Rock Christopher November 27, 2013

Estrella Pkwy Medical Center, a chiropractic and wellness center in Goodyear AZ, is now offering an FDA-approved treatment for knee pain and joint pain in an effort to help their patients enjoy pain relief.

(Newswire.net -- November 27th, 2013) Goodyear, AZ -- Do you or a loved one suffer from knee pain? Can you not enjoy certain activities because your knee will act up? Do you feel pain in your knee when you are active and/or inactive?

If so, you may be suffering from osteoarthritis, a common problem which is a result of low levels of synovial fluid that cushions the knee. Although there is no cure for osteoarthritis, there may be a way to alleviate joint pain and treat it.

An effective knee pain remedy is SUPARTZ therapy injections, which supplements your lack of sodium hyaluronate (HA); a natural substance found in your body. With low levels of HA, it causes osteoarthritis to set in which causes pain in your knee and other body joints.

- SUPARTZ injections may significantly reduce your joint pain over time.
- Your doctor simply applies the SUPARTZ therapy injections into your knee once a week for 3-5 weeks.
- It is a simple procedure that can be done right in your doctor's office.

The [Estrella Pkwy Medical Center](#) is pleased to announce that they are currently offering the SUPARTZ therapy treatments to its existing patients, and are happy to offer complimentary consultations to prospective new patients who suffer from joint pain.

With over 280 million treatment worldwide, SUPARTZ therapy is a safe and effective way to relieve your knee pain. Some people have tried other remedies like acetaminophen and physical therapy. SUPARTZ can be an effective modality for those who tried these solutions, but didn't find relief. It is an [FDA-approved remedy](#) as well.

In addition to joint pain relief remedies, Estrella Parkway Medical Center also offers:

- Rehabilitation
- Physio-therapy
- Limited Medical Care
- Massage Therapy
- Weight Loss
- Treatments for chronic headaches
