bed bug detection K-9

AZEX Pest Solutions, a Phoenix, Arizona-based pest management company, has purchased another bed bug detection K-9 by the name of Cooper. The Labrador retriever was professionally trained and certified to detect bed bugs.

(Newswire.net -- December 4, 2013) Phoenix, Arizona --

AZEX Pest Solutions, a Phoenix, Arizona-based pest management company, has purchased another bed bug detection K-9 by the name of Cooper. The Labrador retriever was professionally trained and certified to detect bed bugs. The addition of this additional

Bed Bug detection K-9 will allow the firm to provide better customer service to its customers as K-9's are known for their unique ability to detect bed bug infestations quickly and efficiently.

Bed bug infestations are associated with numerous negative issues not limited to include the psychological and physical well-being of people who have been affected by them. There can as well be times where the infestation spreads to additional areas of the home or building and possibly to neighboring apartments due to the failure of the owner to detect the source of the bed bug infestation. Detecting bed bugs is extremely effective with the help of AZEX Pest Solutions' detection K-9's.

The K-9 dogs for [bed bug detection](#) that the pest control company employs have the ability to detect live bed bugs in a matter of minutes, allowing the company's specialists to treat the affected area before the problem gets worse. Learning how to get rid of bed bugs will be less complicated as the size and expertise of Cooper and the remaining canines of AZEX Pest Solutions allow them to find bugs in areas that cannot easily be reached by humans as an example: furniture seams, wall spaces, and crevices. They can also very efficiently track scents in mattresses, carpets, upholstered furniture, and baseboards. Its canine dogs for bed bug detection have 97% effective rate when it comes to detecting adult bugs and their eggs.

Aside from the use of canines, AZEX Pest Solutions is also using heat treatments not just to control bugs but to eradicate them entirely. Its trained technicians have the experience and expertise to use these processes both in residential and commercial properties effectively. Heat treatment is also an efficient method in removing dust mites, lice and fleas, roaches, and termites.

[AZEX Pest Solutions](#) has been offering premium pest management services in Arizona since 1999. It is committed to offering excellent customer services and the best pest control service at fair prices. Its comprehensive home pest control and prevention services can give home owners a peace of mind knowing that they have entrusted the safety of their house to a company that knows how to find bed bugs easily and efficiently.
