Big Man's USA, a company that specializes in clothing specially tailored for big and tall men, announces two new Independent Trading Company additions to its winter lineup, available in sizes small to 6XL.

([Newswire.net](#) -- December 17, 2013) Garden Grove, California -- Just in time for Christmas shopping, Big Man's USA, located on the web at [Big Man's USA](#), announces a new line of Independent Trading Company Products. These products make great Christmas gifts or presents for any cold weather month. Best of all, big or tall men do not have to squeeze into sizes that are too small or buy no-name coats and outerwear as the Independent Trading Company manufactures these products in sizes from small to 6XL.

The new line includes two fantastic outerwear items that are sure to please the most discerning big men on anyone's Christmas list. They include:

- The Sherpa-Lined Full-Zip Hooded Thermal. This warm, snugly thermal includes a full Sherpa lining for extra warmth and softness as well as a hood for convenient head cover. Waffle-weave thermal material keeps men toasty warm even in the coldest weather. This thermal can be worn as outerwear on its own or under a jacket or flannel shirt for extra protection from the cold.
- The Sherpa-Lined Full-Zip Hooded Sweatshirt. This stylish hooded sweatshirt is the perfect weight for standalone warmth and includes a full, soft Sherpa lining to provide more than the standard sweatshirt insulation. The convenient hood also provides head and ear protection. This sweatshirt is great on its own or paired with a heavy parka for those sub-zero days or nights.

Big Man's USA offers a full range of sizes from America's best clothing makers including Eddie Bauer, Spor-Tek and Russell Outdoors. Big Man's USA also offers free shipping on all orders over \$75 and a portion of every sale will go to the Wounded Warriors Project.

With the help of Big Man's USA, fashion and large size are synonymous. The entire line of [big men's clothing](#) can be found at www.bigmansusa.com.
