

Phoenix Arizona Plastic Surgery Clinic Experiences Surge in Botox Treatment Bookings

Rose Antonio October 09, 2014

G. Robert Meger Aesthetic Plastic Surgery Is Experiencing A Surge in Botox Treatment Bookings. This announcement comes as they renew their branding campaign for the clinic.

([NewsWire.net](#) -- October 9, 2014) Phoenix , AZ -- Dr. Robert Meger of Phoenix, AZ, recently announced a marked increase in the number of customers making bookings for Botox® treatments at his clinic. This announcement comes as they renew their branding campaign for the clinic. According to the doctor, the increase in bookings can be attributed to the quality of work that they deliver. The clinic aims to make sure that all customers who receive Botox® treatments leave completely satisfied.

Botox® is a cosmetic procedure that injects filler under the skin to smooth out wrinkles. As we age, our bodies lose the ability to generate collagen, elastin and hyaluronic acid, the components responsible for a smooth, taut skin. This results in wrinkles and grooves. Botox® re-injects these vital components directly into the skin resulting in a more youthful look.

Although the clinic mainly provides Botox® Phoenix and Botox® Arizona services, they have clients coming in from the whole Southwest area. Some of their clients come from as far as New Mexico, Nevada, and Utah. We asked Dr. Meger how the clinic has managed to reach such a wide market. "Our branding campaign was designed specifically to reach these markets. When we received the first clients from outside Phoenix, we realized that we had a service that people in far away markets could benefit from. The quality of our work also speaks for itself – many of our clients from these areas tell us that they heard about us from someone who received Botox® treatments from us in the past."

The clinic has been careful to hire some of the best in the field of injectables. Two out of three of the clinicians who work with Dr. Meger specialize in injecting fillers. Nancy Knoll has been working in the cosmetic surgery field for more than 15 years. Before that she worked as a nurse for more than 30 years where she gained a lot of experience with surgical treatments. This has helped her to be uniquely qualified as an injector. She uses Botox®, Sculptra®, Radiesse®, Juvederm®, Perlane®, and Restylane®.

The other expert, Gail Gomez, has more than 20 years experience working in the ICU. She ran her own spa in Glendale for several years before joining Dr. Meger. She has worked with some of the top cosmetic surgeons including Dr. Mauricio De Maio, Dr. Steven Yoelin, Dr. Martin Braun, and Dr. Susan Braun. She specializes in injecting Botox®, Dysport®, Juvederm®, Radiesse®, Artefill, Sculptra®, and Juvederm® Voluma™ XC.
