Gene & Heather Tidwell, Owners All American Chem-Dry

Active Duty / Veteran Owned Fayetteville, NC carpet cleaning company, All American Chem-Dry, celebrates their first year in business.

(Newswire.net -- December 3, 2014) Fayetteville, NC -- Local business owners, Gene & Heather Tidwell and fellow Army CW3 Scott Renteria are excited to announce their first anniversary owning and operating All American

Chem-Dry, a carpet and upholstery cleaning company based in Fayetteville, NC

"It has been a fantastic year", Gene commented. "The growth we have achieved this year surpassed all of our expectations. We have been able to hire a team of professionals that shares and supports our passion for an exceptional client experience."

As an active duty Chief Warrant Officer, Tidwell flies OH-58 Kiowa helicopters for the 82nd Combat Aviation Brigade. This where Tidwell learned about attention to detail. "As a pilot, we have multiple checklists, procedures and standards to follow that will ensure a successful mission. I have taken that exacting attention to every detail and applied to my carpet cleaning business".

Tidwell continued, "When I was looking for a business to own, I needed one that had a product line that actually worked. There is not a solution we have that does not work as advertised. I can look any client right in the eye with confidence and say 'Yep, I can clean that'." Combining Chem-Dry's solutions and Tidwell's attention to detail, a successful home service business was launched.

Other than exceeding their clients expectations, their first and foremost goal is to change the attitude of the public towards carpet cleaning due to many of the problems associated with other cleaning methods. They feel customers are often discouraged by the poor results and damaging effects that may be caused by inferior steam, shampoo, and dry cleaning methods. People are looking for—and very much deserve—a viable alternative that is fast, efficient, and safe. This is where All American Chem-Dry comes in.

"As a father, I am always trying to protect my kids from things that can hurt them. You don't realize how much time you spend on the floor of your home. Chem-Dry's cleaning solutions are non-toxic. They are safe for pets and kids. This is just one of the things that separates us from other cleaners. Actually, we are the only military owned and operated, Non-Toxic & Green cleaner in the Fayetteville, NC area."

All American Chem Dry offers carpet and upholstery cleaning to Southern Pines, Aberdeen, Hope Mills, Pinehurst and the entire Fayetteville area.
