**SUN Severe Urine Neutralizer, recently released on Amazon, offers a simple solution. SUN's concentrated urine odor remover boasts the power to work upon contact, permanently eliminating urine odor.**

([Newswire.net](http://Newswire.net) -- December 9, 2014) Cottonwood Heights, UT -- Spot just made a 'spot' on the much used carpet near the front door. If it comes down to it, most people would much rather throw out the carpet than deal with the unbearable odor. Whatever the case, cleaning up

urine is no fun. So, for pet owners, removing the stain and odor as quickly as possible is paramount.

SUN Severe Urine Neutralizer, recently released on Amazon, offers a simple solution. [SUN's concentrated urine odor remover](#) boasts the power to work upon contact, permanently eliminating urine odor, is easy to use by just pouring it on the affect area, and is effective on all organic odors such as vomit, skunk spray and food.

Pets are great companions, honorary members of the family even. But they can make it harder to keep general surfaces clean. Maintaining a hygienic environment with furry forever friends in the home requires regularly scheduled or even professional carpet and upholstery cleaning and treatment services. These services can cost a fortune, but fortunately, SUN Odor Neutralizer offers the solution.

There are approximately 78.2 million pet dogs and approximately 86.4 million pet cats in the United States. The two most popular pets in most Western countries have been cats and dogs. In the United States, a 2007–2008 survey showed that dog-owning households outnumbered those owning cats, but that the total number of pet cats was higher than that of dogs. The same was true for 2009–2010. In 2013, pets outnumbered children four to one in the United States.

With these statistics, it would be safe to say that most, if not all these homes are at risk of having the problem of pet urine odor. SUN Severe Urine Neutralizer is safe to use on any water-safe surface such as carpet, hardwood, floor, concrete, mattress, furniture, laundry and turf, with "Grade A" professional strength that binds to and absorbs odors at the molecular level. The powerful and proven formula of the urine odor remover can be trusted for use on surfaces without causing damage.

"This is a wonderful product that really works to eliminate even the most stubborn pet urine odors. We had a couple spots in our home from our last pet (poor thing passed away after suffering from an illness that had him urinating on the carpet quite often) that we had tried everything on. After trying tons of commercial and natural products and coming to the conclusion that we'd probably just have to get our carpet replaced, we thought we'd give this product a try as our final effort to save our carpet. Amazingly, it worked immediately," said Cita, a verified Amazon customer who gave the product a 5 star rating.

Pet owners who are affected by pet odors can now eliminate every urine smell from their homes with SUN Severe

Urine Neutralizer. All purchases are be backed by a money-back guarantee.
