adversely affect the value of homes, drastically reducing their resale value. According to [Flyinghomes.co.uk](#), pet odor could negatively affect the first impressions of buyers. If dog hair, mess and unpleasant smells greet potential buyers, there is every chance that these issues will override all the positive aspects of the house. Making sure these issues are properly taken care of with a suitable urine odor remover delivers a better chance for success.

Removing all signs of pets and odor from homes for a more favorable property valuation or quicker sale is very important. Vic Florio, a verified customer said SUN Urine Odor Neutralizer, "Literally Saved my Marriage...My wife loves her cat. I was originally indifferent to it, but it made her happy. Then it got sick and started peeing everywhere and my indifference turned to hatred. If you've ever smelled cat urine – it's the worst smell in the world and next to impossible to get rid of. We tried about 5 different products and were about ready to give up when a friend turned us on to this stuff. So happy it worked! The cat is feeling better, and we're able to live odor-free now."
