Black River Imaging and ShootProof join forces to create a great ordering and fulfillment team for photographers.

(Newswire.net -- January 13, 2015) Springfield, Missouri -- Black River Imaging, doing business in the Springfield, Missouri area, has announced a new partnership with Shoot Proof, an online digital photo-hosting site. This partnership now allows Black River Imaging clients the convenience of uploading, sharing and selling images online. By choosing Shoot Proof and Black River Imaging, clients receive 100% of the profit because

there are no commission fees to be paid. Clients can save time and the hassle of face-to-face sales by quickly uploading images and making it available for customers through Shoot Proof's easy to navigate viewing gallery. Customers can download images and choose from a wide range of imaging services offered by Blue River Imaging.

Artists, photographers and designers are able to maintain company personalization and uniqueness. Customers can enjoy the added benefit of customizing online galleries to reflect company logos, taglines and color preferences. In addition, clients set the privacy settings of galleries and individual photos, meeting customers' need for privacy and confidentiality and never compromising proprietary rights. On top of that, clients using [Black River Imaging and Shoot Proof](#) will maintain control of prices, including the prices of Blue River's services.

Shoot Proof provides up to 28 MB of storage per image, freeing up space on clients' computers and cameras. Images are safely and securely stored in the companies online viewing galleries. Images are quickly available for download or purchase, with a quick turnaround time for payout to clients.
