

Reputable Miami Plumbers Polish Off New Website

Diane Villanueva June 15, 2015

Douglas Orr Plumbing, Inc.

Local South Florida company Douglas Orr Plumbing offers residential and commercial plumbing services. The company recently launched their newly designed website.

([Newswire.net](#) -- June 15, 2015) Miami, FLORIDA --Established back in 1974, Douglas Orr Plumbing is a respected emergency plumbing company located in South Florida. The company has been the recipient of the Angie's List Super Service Award each year since 2007. Fully licensed and insured, the expert plumbers at Douglas Orr Plumbing service residential and commercial locations in South Florida, including the Miami Dade

County, Broward County and Palm Beach County areas. The Miami Plumbers recently announced the launch of its newly designed website, an undertaking which was done to enhance the user experience and provide new tools for customers looking for help with their plumbing issues.

"We're very excited to launch our newly designed website where we can showcase our past projects as well as keep our customers informed of our current jobs," said company spokesperson Marcus Spiegelberg. "One of the main goals with this complete overhaul of our site was to help customers connect with us easier, and keeping customers informed of what's going on is a big part of that."

Spiegelberg also mentioned a number of other new options available with their new site, saying, "You can now schedule appointments online! Feel free to search for your service area and schedule an appointment when it's convenient for you. We have also compiled our extensive self-help blogs in one convenient location for our customers who need help with tasks they want to undertake themselves."

"We are also excited to provide a page dedicated just to our charity work and bring more attention to the organizations that we support. New coupons are also available through our site for service work. And one of the best things we've done with the new site is making it video capable. It's a good thing, too, since we have multiple DIY videos on YouTube! Check it out."

Along with their new website, the [Miami Plumber](#) team provides only extensively trained technicians which meet the high standards of the company. All technicians from the company are also direct employees rather than larger contractors.

The Fort Lauderdale plumbers also offer 24/7 emergency plumbing services, including repair and maintenance on septic tanks, toilets, leak detection, showers, tubs, water heaters and much more. The company has completed over 10,000 jobs, showing that residents and businesses can trust the licensed professionals.

"Throughout the years, we've provided expert plumbing services for homeowners, shopping malls, restaurants, banks, medical facilities and more. One reason for updating our website was so we could show our customers that we care. We value your property and time, and that's the reason we provide punctual and professional service and now, a more accessible, user-friendly website."

To contact a Miami plumber, [Fort Lauderdale plumber](#) or [West Palm Beach plumber](#), visit the company's [new website](#).
