Alpers Dental to Give Away Car

Charles Crawford  September 14, 2015

Alpers Dental will be making someone very happy. The most trusted family dentist in Auckland is giving away a VW Golf valued at $40,000*.

(Newswire.net -- September 14, 2015) Auckland, NZ -- Alpers Dental doesn't just offer great dental care, but also the chance for a lucky patient to win a car.

Alpers Dental will be making someone very happy. The most trusted family dentist in Auckland is giving away a VW Golf valued at $40,000*.

To enter, participants just have to become a patient of Alpers Dental. If they already are patients, they have to refer us a friend or family member between Sept. 1, 2015, through Dec. 1, 2016. They can get entries if they post a review of the practice. The winning entry will be randomly selected from the entries on Friday, Dec. 11, 2016.

“At Alpers Dental we love our patients, and we love to see them happy,” said Dr Nic Anderson. “and, we appreciate their business. That’s why we are excited to have the chance to give away this awesome car to the lucky contest winner!”

To win the car, all new patients get one entry in the draw. When existing patients refer someone who becomes a new patient, they get three raffle entries. Alpers Dental has not set a limit on the number of raffle entries patients can have, so the more people you refer the greater the chances of winning.

Patients of Alpers Dental know that they can trust Dr Nic and his team for excellent dental care. Alpers Dental uses the most modern dentistry techniques available to help patients with: family dentistry, cosmetic dentistry, teeth whitening, amalgam removal, orthodontics, treatment of snoring and sleep apnoea, jaw joint (TMJ) pain and all dental services. Alpers Dental’s holistic approach goes beyond what the typical dental office offers by understanding the effects dental problems have on overall health. As an example, Alpers offers the Breath Correction Programme, which helps patients retrain their breathing patterns to improve overall health.

Alpers Dental offers these services and more in a friendly and relaxed environment, all with a bit of fun. The goal at Alpers Dental is to help each and every patient to have the best health possible, which begins with excellent oral health. Dr. Nic and his staff also realize that often money can be a concern, and that's why they offer affordable monthly payment plans for patients. At Alpers Dental the patient's happiness comes first. The patient who wins the new car is sure to be very happy!

*This is the current market price, but it is subject to change when the prize is drawn.
