(Newswire.net -- November 11, 2015) Concord, CA -- Dent Erasers LLC in Concord, California today announced a 10% Off Special Discount for November 2015.

Dent Erasers LLC specializes in the art of "Paintless Dent Repair"(PDR), also known as "Paintless Dent Removal". PDR is performed on auto body panels to remove minor dents and dings from a car or motorcycle and at Dent Erasers we raise the challenging skill of Dent Erasing to the level of an art form.

We have many years of experience on most makes and models of cars. The vehicles we have the most experience with are BMWs, Mercedes Benz, and Toyotas.

Generally, the more shallow the dent, the greater the chance of Paintless Dent Repair being a suitable option. Even dents with a several inch diameter can be repairable with this method, as long as the dent is shallow and uncreased. Hence, extremely sharp dents and creases often may not be repairable - at least not without painting afterwards, although a very skilled Master Technician may surprise you with what they can get out.

Dent Erasers LLC is owned and operated by Mr. Brian Blanc, CEO and Master Technician. Brian has over 18 years of experience and can handle any of your Paintless Dent Repair needs and is just a phone call away to answer any of your questions.

Dent Erasers LLC has been providing Paintless Dent Repair services throughout the East Bay Area since 1999. Dent Erasers has successfully removed door dings, small and large dents, hail damage, and bumper dents from automobiles in areas in and around Concord, Pleasanton, San Ramon, Danville, and Walnut Creek.
