

Lifts Plus Depot Highlight Recent Installations

Tyler Collins January 04, 2016

Lifts Plus offers expert installation of garage lifts

Lifts Plus Depot, the mid-Atlantic garage lifts experts, talks about some of the recent installations the company has performed for clients.

([Newswire.net](http://www.newswire.net) -- December 30, 2015) Fredericksburg, Virginia - Lifts Plus Depot has had a busy end to another successful year, installing garage lifts and commercial-quality shop equipment throughout the mid-Atlantic region. Some of their recent installations include work performed for industry veterans Firestone and Goodyear as well as Colgan Powersports in Manassas, Virginia and

the Porsche Club of America. Company owner Shawn Coleman knows that these high-profile installations represent growing interest in his firm's outstanding service offerings. "Garage lift installations for these high-profile clients serve as proof of our company's commitment to service excellence," says Shawn. "Our quality and our attention to detail have made us a trusted provider of commercial-grade automotive garage lifts and other service equipment all along the east coast." To learn more about the vehicle garage lifts the company sells, visit <http://www.yelp.com/biz/lifts-plus-depot-fredericksburg-5>.

The company was established in 2003 and quickly rose to prominence among vehicle repair companies and enthusiast clubs. It specializes in two- and four-post hydraulic garage lifts from recognized manufacturers like Triton, BendPak, and Challenger. Service lifts and storage lifts are the company's bread and butter, but they are also well-known for their installations of chain-drive and scissor alignment lifts for repair and bodyshop garages. In addition, the company offers sales and installation of Ranger and BendPak dynamic wheel balancers and tire changers, adding unrivaled selection to their many clients throughout the Eastern Seaboard.

Finally, their selection of accessories and shop equipment helps service garages get up and running quickly, with products like tool cabinets, service carts, transmission supports, and compressors on offer to their clients. One aspect that helps Lifts Plus stand out from the competition is the company's dedication to adding value for its many clients. Almost unheard of in the garage lifts industry, the company offers free delivery, setup, and installation on all of the lifts they sell to clients in Maryland, Virginia, West Virginia, North Carolina, Pennsylvania, New Jersey, and Delaware. "We believe in giving our clients the best service and selection," says Shawn. "Providing free delivery and installation to our clients in several eastern states demonstrates our commitment to service excellence." The company also offers fast financing to qualified customers, furthering their professionalism and service to vehicle repair specialists throughout the region the company serves.
