Hydro-Stop Roofing Tops the List in Environmentally Safe Roofs

If you're planning to apply Hydro-Stop roofing for either your residential or commercial property, All Season Roofing is on top of your needs.

(Newswire.net -- April 7, 2016) Wilmington, North Carolina -- If you decide to go with Hydro-Stop

roofing for your home or property, you are not only saving yourself some long term expenses, you are saving the planet—and your roof is looking great doing it. That's because when it comes to environmentally safe roofing systems, then you want to go with the best roofing company in North Carolina for its installation: All Seasons Roofing. Their highly professional and knowledgeable [roofing contractors](#) are certified in the installation of this great looking, long lasting, energy efficient roofing system.

What Is Hydro-Stop Roofing?

Basically, the Hydro-Stop roofing system is the most environmentally safe roofing and waterproofing system available. It is composed of a highly flexible UV resistant elastomeric compound. This compound is then completely reinforced with a durable nonwoven polyester fabric. Because of its design, it can be used in any flashing or roofing application.

What Are The Benefits of Hydro-Stop Roofing?

Here is a breakdown of some of the benefits of this revolutionary product:

- **Infrared and UV resistant.** In fact, it surpasses the highest standards for solar reflectivity.
- **Flame resistant.** In the event of a fire, flames will not spread over non-combustible areas.
- **Lower heating and energy costs.** You can expect your energy bill to go down by thousands of dollars.
- **Long term durability.** This will add to your savings as you won't have to pay for expensive disposal/removal fees.
- **Safety.** Installation is safe due to the non-toxic formula of Hydro-stop roofing.
- **No Need For Downtime.** Because this roofing system meets VOC emissions standards, your facility's work doesn't have to stop just because the [roofing contractors](#) have begun their work.
- **Easy to apply, easy to clean up.** Once this roofing work has begun, it shouldn't take too long to complete or clean up.
- **Great Looking.** This roofing material is available in just about any color or finish that you can imagine.
- **Resistant to acid rain and other pollutants.**
- **Wind resistant.**
- **Waterproof.**
