Men's Hair Trends for 2016

American Beauty College has the latest hair trend for men this 2016. A more modern and popularized versions of hairstyle especially for men.

(Newswire.net -- May 3, 2016) Los Angeles County, CA -- **Hairstyles for men in 2016** will see some of the 2015 styles carrying over, but there will be a lot of longer hairstyle trends taking over as the year progresses. There will be longer styles with wild textured

hair on top combined with short sides, and some will go for the natural short hair look with a simple sheer cut on top. A more modern version of the **pomp** will also be popular, with a longer, looser style that has to be blown dry. Here are a few other trends to expect in 2016:

Wavy with High Volume to Buzzed Skin Fades

There will be a variation of the undercut showing a fade and taper with the top remaining much longer; this will blend into a wavy, more volumized look. This style will require one being comfortable with a blow dryer, brush and matte pomade. It will contrast with the buzzed skin fades which will also be seen more in 2016 as the trend swings to a contemporary buzzed style with fades that are high and tight.

Parts will also be Fashionable

A sleek style featuring a part will return again as the side part is such a timeless look and never seems to go out of style. This classic haircut with the longer top and part appearing on the side will again be strong. A modern twist will be added, known also as the razor line or side part line, where the classic haircut of a hard part line is added to the comb over and pompadour look. It is a very clean and neat look, and while simple, it looks great. A classic barbershop would be the ideal place to achieve this look.

The Man Bun Gains Steam

Once thought of as only a female look, the man bun is now appearing with facial hair to add a flair of masculinity. This look is gaining popularity with young trendsetters next to the undercut and puts a twist to the female variation. This style has been popularized by Swedish Soccer player, Zlatan Ibrahimovic.

The Curly Trend for 2016

Curly hair is often more difficult to work with, as it is harder to style and harder to cut so that it turns out the way one envisions. The Puffy Undercut works well for curly or wavy hair as a lot of volume and texture is needed to attain the look. The more volume and texture the easier to add the product to; straighter hair will require more layering.

American Beauty College

The American Beauty College has been sharing their knowledge in the beauty industry for more than 40 years. They provide quality education for students to succeed and secure a future in the industry. Students who want to begin a career in cosmetology and barbering should schedule an appointment for a tour and see how they can earn an education to learn all the latest in men's hair trends.

American Beauty College enrollment will provide students with all the key fundamentals of barbering procedures, techniques, and methods of application when they join the **Barbering Program**. Here they acquire relevant knowledge and information and are taught to apply this to their career in barbering while continuing to learn in all related areas of the barbering industry.

The American Beauty College is the only one to offer Wahl courses to both barbering and cosmetology students. This is a one-of-a-kind program that cannot be found in any other college. Find out today how to become a part of this cutting-edge program.
