

# MVP Services Celebrates Eighteen Years in Business

Tyler Collins September 28, 2016

The company offers custom pressure washers.

North Carolina-based MVP Services has been providing customers with quality pressure cleaning equipment, parts, and repairs since 1998.

(Newswire.net -- September 28, 2016) Raleigh, North Carolina -- North Carolina's leading Landa pressure washer dealer, MVP Services, is celebrating its eighteenth year in business. The

company, established in 1998 in Raleigh, has served customers throughout the state's Research Triangle. Since it first opened its doors, the company has expanded to three locations; in addition to its Raleigh headquarters, it operates offices in Kernersville and Rocky Mount. "We have built our company on a foundation of excellent service and selection for our customers," says an MVP spokesperson. "Our customers are what have helped us reach this milestone in our business operation." To learn more about the wide range of commercial cleaning equipment, repairs, and supplies the company offers, visit <http://landanc.com/services/>.

Landa pressure washers are only part of what the dealer provides to its commercial and industrial clients, however. In addition to top-quality cleaning equipment, the firm specializes in parts and service as well. The company services most makes and models of pressure washers and other cleaning equipment, including manufacturers like Comet, Honda, Kohler, and AR. An impressive array of repair parts are kept in stock to ensure quick turnarounds. MVP boasts the most factory-certified Landa and Honda engines technicians in the state of North Carolina. "Our techs can handle everything from routine maintenance of equipment to complex repairs," adds the spokesperson. The technical staff can even help customers troubleshoot problems over the phone or online, reducing expensive downtimes. Cleaning supplies such as chemicals and degreasers are also stocked at the company's three service locations.

An extensive line of custom pressure washing equipment is also carried by [MVP Services, Inc.](#) The company can build equipment to the unique needs and specifications of clients, and these customized units range from cold- and hot-water pressure cleaning washers to specially-outfitted trailers, trucks, and water reclamation systems. Only the highest quality parts are used in the fabrication of custom equipment such as single and twin-cylinder Honda engines and Hannay hose reels. "Our customized pressure washers can be found in numerous industrial and commercial applications throughout the Triangle region," says the MVP spokesperson. "They are in use with building maintenance companies, agricultural producers, and heavy equipment operators, among many other commercial customers."
