

Dr. Barr Announces Launch of Juvederm Volbella XC

Andy Leonard October 23, 2016

Palm Beach Plastic & Cosmetic Surgery to begin offering revolutionary facial injection treatments in office.

(Newswire.net -- October 23, 2016) West Palm Beach, FLORIDA -- Dr. Fredric Barr is thrilled to announce he will now be offering Juvederm Volbella XC treatments. This is an exciting new treatment for the rejuvenation of facial appearance and the attainment of more youthful-looking skin.

Juvederm Volbella XC is the newest FDA-approved dermal filler to be put on the market.

The injectable hyaluronic acid filler has patented "vycross" technology, producing immediate visible results. Compared to other fillers on the market, Juvederm Volbella XC has the unique ability to diffuse evenly under the skin and clinical studies have shown it to be the most effective treatment for improving fullness and symmetry of facial tissue. It is widely recognized as a safe and effective treatment.

Juvederm Volbella XC can be injected into the lips and other areas on the face. Benefits of treatment (depending on where the formula is injected) include plumper lips, and reduced appearance of features such as pitted acne scars, under-eye hollows, and visible wrinkles (including those that run from the nose to the corners of the mouth). A single treatment can last up to 12 months. Side effects are rare, however, may include swelling, uneven distribution of the gel or subdermal lumps.

To enhance comfort and minimize swelling during Juvederm Volbella XC treatments, the formula is mixed with anesthetic prior to being injected. This in-office procedure only takes about 30 min and has minimal recovery time. Regular activities can be resumed almost immediately, including the application of make-up to injected areas.

As a leader in the Cosmetic and Reconstructive Surgery industry, Dr. Barr is pleased to be offering [Juvederm Volbella XC](#) injections in the Palm Beach area. With over 30 years of experience, clients can be assured of expert and personalized service with exceptional results.

If you would like to know more about Juvederm Volbella XC injections or are ready to book your appointment with Dr. Barr, contact the professionals at Palm Beach Plastic & Cosmetic Surgery today for your FREE consultation at 561-833-4122.
