South Mountain Family Dental Sponsors Charity Golf Event in Tempe

South Mountain Family Dental supports education in the local community by sponsoring a hole at the annual Par for a Purpose Golf Tournament in Tempe.

(Newswire.net -- October 28, 2016) Tempe, Arizona -- South Mountain Family Dental is lending its support to the work of the Tempe Union High Schools Foundation by sponsoring a hole at the seventh annual “Par for a Purpose” Golf Tournament being held at the Arizona Grand Resort on November 3, 2016. Tee time for the event is scheduled for 7:30 a.m. The proceeds from this charitable event benefit classroom programs in the schools in the Tempe Union High School District.

“We pride ourselves on providing the highest level of dental care to the families that have made us their dentist in Tempe AZ,” according to Dr. Michael Dickerson of South Mountain Family Dental. “Our participation in this charity golf event is one way for us to demonstrate our support and commitment to the local community that has been so kind to us.”

The Tempe Union High Schools Education Foundation is a 501(c) (3) nonprofit organization that provides funding to area schools for programs that benefit the educational experience. It provides grants up to $1,500 to fund innovative projects based upon proposals submitted by teachers. It also administers scholarship programs to benefit students in schools in the Tempe community.

Members of the staff at South Mountain Family Dental will be on hand at the golf outing to greet participants. They will be distributing dental certificates, water bottles and an assortment of healthy treats at the hole sponsored by their office.

South Mountain Family Dental has developed into the provider of family and cosmetic dental services Tempe residents have come to rely upon. Preventative dental services for family members of all ages include cleanings, digital X-rays and examinations. Sealants and athletic mouth guards are among the services offered by the professional staff to protect and maintain the dental health of patients. Nitrous oxide and sedation dentistry are available to help patients to feel at ease and comfortable during treatment.

Anyone in need of cosmetic dentistry will find it at South Mountain Family Dental. Teeth whitening, dental implants and other services and treatment options are available for adults who are self-conscious about their appearance and their smiles. Adult patients who thought that braces were only for children can now achieve the smile they always wanted with the Invisalign system of aligners that do not use wires or metal brackets.

Participation in this year’s charity golf tournament to benefit local education programs is typical of the involvement the Tempe family dentist and his staff at South Mountain Family Dental are doing to enhance the lives of residents in the area. Dr. Michael Dickerson begins with the dental services provided for patients in the office and continues with their commitment to the members in the community.

About South Mountain Family Dental
