

Dr. Alex G. Lee to Speak at Silicon Valley IoT Workshop

DE Brown December 01, 2016

Dr. Alex G. Lee will speak at Silicon Valley IoT Meetup, Startups Greater Asia Meetup, and IEEE Consultants' Network Joint Workshop on December 9th.

([Newswire.net](#) -- November 29, 2016) -- IoT, short for the Internet of Things, is gaining notable speed, and IoT solutions are now solving business problems across many markets all over the world. IoT is becoming an increasingly growing topic of conversation not only in the workplace, but out of it also. It not only has the potential to impact how we work but also how we live. In basic terms, this is the concept of connecting any electronic device to

the Internet and/or to each other. This includes cellphones, computers, televisions, dishwashers, washing machines, headphones, wearable devices and almost any other device with an on and off switch. This also applies to components of machines, if it has an on and off switch then chances are it can be a part of the IoT. The Internet of Things is a connected network of devices, but can also include people. If it can be connected, chances are at some point in the future, it will be connected.

As part of the Silicon Valley IoT Meetup, Startups Greater Asia Meetup, and IEEE Consultants' Network Joint Workshop, Dr. Alex G. Lee, TechIPm & Liquidax Capital, will explore innovation insights and analyze patent trends in IoT vertical markets such as smart homes, smart cities, wearables, connected car and more, in addition, looking into the state of the art of IoT innovations. He will dive into the potential innovation R&D areas that can lead to the development of new products and services. Topics that will be covered include:

- IoT Innovation Frontiers Insights from Patents,
- IoT Innovation Development Exploiting Patents
- IoT + Big Data + AI Integration Strategy
- IoT Innovation Platform for Business Growth
- Cross-border IoT Tech Transfer Deal Trends
- Leveraging Strengths in the Asian and US IoT Markets

The event will be held on December 9th, from 12-2pm and will include lunch and networking.

With over 25 years of experience, Dr. Alex G. Lee has worked with leading companies and research institutions such as Samsung, Korea Telecom, KMW, MIC Radio Research Laboratory, Boston University, and Georgia Tech. He has consulted with Fortune 500 companies, patent monetization firms, law firms, investment firms, and research institutions. He brings a unique blend of experiences and expertise in technology R&D, technology commercialization, business development, intellectual property (IP) management, and business strategy consulting into business, technology, and IP integrated strategy development and execution.

Having earned a Ph.D. in physics from the Johns Hopkins University and J.D. from the Suffolk University Law School, Dr. Lee is registered to practice before the US Patent and Trademark Office. He has passed the New York State Bar Exam and is a Certified Licensing Professional (CLP).

Event details:

Subject: IoT + AI + Big Data Integration Strategy & IoT Innovation Insights from Patents and IP-Based Innovation Platform

Speaker: Alex G. Lee, TechIPm & Liquidax Capital

Venue: Carr & Ferrell LLP, 120 Constitution Drive, Menlo Park, CA 94025

Date and Time: Friday, December 9, 2016 from 12:00 PM to 2:00 PM (PST)

12:00 -12:30 pm: Lunch and Networking, 12:30 -2:00 pm: Talk and Q&A

Register Online: <https://www.eventbrite.com/e/workshop-iot-ai-big-data-integration-strategy-iot-innovation-insights-from-patents-and-ip-based-tickets-29584945368>

*Registration is complimentary
