Vacuum Sealer Food Container

Ultimate Kitchen announced the release of its new Two Liter Food Storage Vacuum Sealer Canister, designed to connect to the Ultimate Kitchen vacuum sealers.

([Newswire.net](#) -- December 15, 2016) Coeur d'Alene, Idaho -- Ultimate Kitchen announced the release of its new Two Liter Food Storage Vacuum Sealer Canister, which is designed to connect to the Ultimate Kitchen vacuum sealers.

Adding to their expanding line of kitchen products, Ultimate Kitchen has recently announced the release of their new Two Liter Food Storage Vacuum Sealer Canister. It is designed to connect to any Ultimate Kitchen food storage vacuum sealer. The company offers a full line of vacuum sealing food storage products. They offer three sizes of vacuum sealers, one and two liter BPA-free plastic storage containers, and a variety of sizes of rolls of plastic bags. All items are compatible for vacuum sealing food at home. The system is designed to extend the life of perishable foods and leftovers up to five times.

Ultimate Kitchen is a brand that has become well-known to online shoppers. In addition to their line of vacuum sealer food storage products, their merchandise line includes kitchen sink faucets, chef knives, soap dispensers and coffee presses. Their built in soap dispenser has become a best seller on Amazon. Partnering with Amazon has allowed Ultimate Kitchen customers the convenience of at-home shopping and delivery. It has also allowed the company to be able to reach customers worldwide.

The newly released Two Liter Food Storage [Vacuum Sealer Canister](#) joins the Ultimate Kitchen line of food storage vacuum sealing products sold on Amazon. Products include two compact sealers and an upright sealer. Vacuum sealer accessories include food storage bag rolls of various sizes and canisters (one and two liter size). All canisters and bags can be used with the three Ultimate Kitchen sealers.

Vacuum sealing food for storage extends the life of perishable foods. Leftovers last longer in the refrigerator, thus reducing food waste. Users are able to save money using a food storage system by being able to buy food in bulk. Users save time by preparing favorite

“Saving time and money is a focus for the Ultimate Kitchen brand,” said Cassie Clark, Director of Operations. “Our customers can save money by buying food in bulk. They can save time by preparing food in bulk. Planning in advance allows our customers to be able to better prepare healthy meals in advance. Using our vacuum sealing system, it is easy to just remove canisters from the freezer or refrigerator recipes in advance. Meat will marinate in half the time. and heat for a quick, homemade family meal.”

The [reusable storage containers](#) are BPA-free, and therefore are safe for microwave use. They are stain and odor-resistant so will not retain odors of pungent foods. An arch design in the lid allows for uniform pressure on the food during the vacuum sealing process. A product video introducing the [vacuum sealer food container](#) is available on YouTube.
