West Jordan Welcomes New State-of-the-Art Urgent Care Clinic

Stat MD Urgent Care  August 26, 2017

West Jordan today celebrated the opening of a new urgent care clinic, providing residents access to high quality, affordable, convenient health-care.

(Newswire.net -- August 26, 2017) West Jordan, UT -- Stat MD Urgent Care celebrated the opening of their second state of the art walk-in medical clinic in West Jordan, providing area residents access to high quality, affordable, convenient health-care services. It is the second in a series of care centers to be opened along the Wasatch front.

“We are very excited to open our second center here in West Jordan,” said Stat MD Chief Medical Officer, Dr. Jennifer A. Knepper. “Too often people make unnecessary trips to the emergency room and wind up with hospital bills for non life-threatening illness and injuries. Why? All because they are unable to wait for an appointment with their primary care doctor,” she added.

“Our clinics are an alternative to both the high cost of ER visits, and the hassle of having to schedule an appointment with your family doctor. We are especially good at getting most patients in and out in under an hour,” Dr. Knepper explained.

The West Jordan location of Stat MD Urgent Care provides patients easy, affordable access to expert treatment by physicians, physician’s assistants, and other medical professionals experienced in urgent care, emergency departments, and family medicine practices.

In addition to urgent care for non life-threatening injuries, the spacious facility offers walk-in diagnosis and treatment for a wide variety of family illnesses including ear, eye, bronchial, bladder and sinus infections, along with on-site prescriptions, x-ray, pulmonary function testing, ECG, and pre-employment and school physical exams. Common vaccinations such as influenza, shingles, and tetanus are also available daily.

“We are proud to be part of the solution to rising health care costs,” said Stat MD Urgent Care physician, Dr. Knepper. “Stat MD Urgent Care will provide the West Jordan community with increased access to the finest quality and compassionate care that saves families money and time.”
