

Is Alder Hey Hospital Deliberately Killing a Baby?

Chris Ryan March 16, 2018

Alder Hey Hospital

UK Euthanasia Exposed!- is Alder Hey hospital guilty of attempted aggravated murder The hard FACTS of UK medicine revealed!

(Newswire.net -- March 16, 2018) -- *A nefarious legal system grants hospital in the United Kingdom, the lawful right to murder baby Alfie! He is not the first baby to die in a demented scheme to end the lives of innocent babies! Defenseless baby Alfie became the next victim in Alder Hey Hospital! Intentionally inflicting the crime of neglect and abuse, Alder Hey Hospital keeps Alfie drugged on four heavily sedating medications as they refuse to address even basic needs. Repeatedly attempting to end baby Alfie's life, the infant fights the machine to breath on his own!*

FACTS and Questions We Are Investigating?

- Did Alder Hey hospital appeal to the courts to withdraw life support with **NO diagnosis?**
- Did Alder Hey hospital **repeatedly lie** and **denied the plea from the parents to save Alfie's life or even let him go elsewhere?**
- Did Alder Hey hospital entered into evidence **FALSE MRI'S** to support their case?
- Did Alder Hey hospital, In August 2017 **maliciously orchestrate** a deliberate overdose of medication to kill baby Alfie while blackmailing the parents into agreeing to an unwritten DNR?
- Did Alder Hey hospital intentionally inflict a drug-induced coma to Alfie by administering four heavily sedating and interacting anti-seizure medications that mimicked a coma; making Alfie to appear limp and weak ?
- **Baby Alfie is NOT brain dead!**

• **THE HOSPITAL INSISTED IN COURT THAT BABY ALFIE FEELS NOTHING :**

- **Witnesses attest to the horror** as they watched baby Alfie violently kicking his legs and righting in pain as doctors viciously tried to ram a an over-sized catheter into his tiny body! With a brutal lack of unresponsiveness to the child's obvious feelings, the doctors finally obtained the correct size catheter but only after a catheter was denied for 22 hours of non-urination!

- **Multiple video and photo evidence show Alfie waking up from a drug-induced stupor** , as he looks at people he knows and even smiles! This is hardly a baby with “no ability to feel pleasure or pain” as the hospital falsely claims.
- Did Alder Hey hospital, pressure his 19 year-old parents to allow the death of their baby. The hospital ignored Alfie's basic needs and defied a legal medical directive issued by the parents to protect Alfie's life. Did the hospital, with intent and malicious forethought, continuously violates the directive with unauthorized actions as they deny treatments in a timely fashion!
- Is Alfie, contrary to hospital claims, **not “rapidly degenerating”**. His Glasgow Coma Scale scores have remained 8-10 since July, indicating he is not in a REAL coma at all!

The simple and evil fact is this:

- Cover your tracks at all costs, with a complicit judiciary! Baby Alfie is just too embarrassing for the government to keep alive!

The hospital and legal system, currently referred to as the “UK EUTHANASIA: Systematic Killing Machine” works diligently to utilize instruments of death to intentionally kill this child and others. In the first seven weeks of 2018 alone, there were 10,000 deaths in the UK!

Did Alder Hey hospital. after inserting feeding tubes, ignore complaints about dirty and mold-ridden tubes?.

MOLD CAN BE SEEN WITH THE NAKED EYE! WE URGE THE SUPREME COURT TO NOT KILL BABY ALFIE !

WE HAVE THE MEDICAL DOCUMENTATION TO PROVE OUR COMMENTS ! PLEASE, DO THE RIGHT THING AND ALLOW BABY ALFIE TO BE TRANSFERED AS A REFUGEE TO THE UNITED STATES, OR ANOTHER COUNTRY FOR TREATMENT!

AN URGENT LETTER IS NOW CURRENTLY SITTING ON PRESIDENT TRUMP AND VICE PRESIDENT PERNCE'S DESK! WE RESPECTFULLY IMPLORER THE SUPREME COURT TO GIVE ALFIE THE OPPORTUNITY TO LIVE!
