

# Experience Recovery Launches in Orange County

Ann Premazon March 26, 2018

**Experience Recovery launches in Orange County, offering Freedom from Drug and Alcohol Addiction for those struggling with drug addiction or alcoholism.**

([Newswire.net](http://Newswire.net) -- March 26, 2018) Westminster, CA -- For those struggling with drug addiction or alcoholism, freedom can seem elusive and unattainable—but science proves otherwise. The data shows that, for those who pursue clinical intervention, treatment can be wholly effective, and life-long recovery achievable. Experience Recovery has launched in Orange County, California, bringing this message of hope—and providing addiction recovery services to those throughout the area.

“Our belief is that addiction recovery can be achieved by anyone, so long as they seek the right form of medical intervention,” comments Experience Recovery in a new statement to the press. “We take a clinically-proven and science-backed approach, providing treatment options that have been confirmed to be medically sound, safe, and effective.”

The goal of Experience Recovery is to empower those with addiction to attain lifelong peace and freedom—something that encompasses physical, mental, emotional, and spiritual health, and also touches on financial and occupational goals. Though all are welcome at Experience Recovery, the rehab center is especially knowledgeable about recovery options for men.

“Executive rehab is another big part of what we do,” says Experience Recovery. “We welcome busy C-suite leaders who are looking to find freedom from addiction. Our aim is to treat them quickly and discreetly, getting them back to work as soon as possible.” The viewpoint of Experience Recovery is that no two clients are ever totally alike, and as such, cookie-cutter approaches don’t work. Rather, Experience Recovery offers a range of options that can be customized to meet the individual’s needs. These include detox, inpatient treatment, outpatient treatment, transitional living, and more.

“We are proud to have a team of medical professionals whose mission is to help clients achieve freedom from addiction and all its ill effects,” comments Experience Recovery. “For those in Orange County who struggle with addiction and are unsure of the best path forward, we urge you to contact us today. Learn how true freedom and lifelong recovery can be yours.”

Experience Recovery is located at 3921 W. Hazard Ave. Santa Ana, CA 92703, and serves clients throughout Orange County and all of Southern California. More information is available at [www.experiencerecovery.com](http://www.experiencerecovery.com).
