The company owner Paul's customer service is highly rated.

Phoenix-based car detailing company has launched mobile auto glass repair and replacement services. The company also offers full car detailing, window tint and ceramic coating.

(Newswire.net -- July 5, 2018) -- Phoenix, Arizona-based car detailers have launched [mobile auto glass repair and replacement services](https://cardetailingphoenix.com). The

company understands that windshield repair can be a costly procedure; they strive to make it as easy and painless as possible.

More information can be found at <https://cardetailingphoenix.com>.

A lot of car owners will put off fixing rock chips as they can seem insignificant, but in fact they can spread quickly and cause major visibility issues. It's especially important that the front and back windshields stay clear and chip-free.

The company specializes in rock chip repair and [full glass replacement](#). They accept insurance coverage from most major insurance companies and will help customers organize and coordinate their insurance claims.

Mobile service for glass repair is now offered by the company, meaning customers can save time by having the glass experts come to them to perform the services rather than having to take time out of their day to get down to the shop. Areas available for mobile windshield service include Phoenix, Ahwatukee, Tempe, Scottsdale, Chandler, Gilbert, Mesa, Paradise Valley and Arcadia.

Other services offered by the company include car detailing, window tint and ceramic coating. In addition to vehicles, window tinting is available for home and office windows. All tint jobs come with a lifetime warranty.

Reasons for window tinting include increase of privacy, reduction of heat inside cars, homes and offices, blockage of harmful UV rays and prevention of glass shattering. Window tinting can also reduce home cooling costs.

Ceramic coating is the process of applying a ceramic coat over an automotive paint job to improve the look of the paint job, make vehicles more scratch resistant and will make cars, boats and trucks look cleaner longer, ultimately saving customers' money on car washes. The ceramic coating also makes it easier to remove bugs and water spots.

The company owner Paul's customer service is highly rated. One online testimonial reads, "Just had an interior detail, and I wish I could give Paul six stars. The car is better than new." Interested customers can find more information at the link above and can call or text 1-480-233-1529 to make an appointment.
