Using the BlocPal wallet app, now available on both the Google Play and iTunes app stores, consumers can pay in the currency of their choice without bothersome delays, while merchants receive guaranteed payouts at a fraction of the cost of working with cre

**BlocPal, the Vancouver based FinTech company, has committed to providing up to 200 free drink tickets to attendees who purchase a drink ticket with the BlocPal wallet app.**

([NewsWire.net](#) -- November 2, 2018) -- [BlocPal](#), the Vancouver based blockchain payments company, is sponsoring a fun event this Friday at this year's World Crypto Con show at the Aria Hotel and Casino in Las Vegas. Attendees who show up at the Monster Security Token Event between 2 p.m. and 5 p.m. on the South Veranda across from the Primrose Ballroom will be able to purchase 2 drink tickets for the price of one using the BlocPal app.

“What could be better than a free beer?” asks Nick Mellios, CEO of BlocPal. “Our mission is to make using crypto in the real world simple, and that's why we decided to put our money where your mouth is! Seriously, we can't wait to meet a flock of very happy BlocPal users.”

All people need to do is download the free BlocPal app and deposit enough crypto to cover the drinks they want to consume. Using the BlocPal merchant solution, with a snap of their cameras, for each purchase they'll get another one free. BlocPal has committed to providing up to 200 free drink tickets on a first come, first served basis.

BlocPal, which presented its mainnet this week at the World Crypto Con in Las Vegas, is built over the proven Bitcoin foundation with a series of innovative new functionalities designed to bring cryptocurrency payments to a mainstream audience. Thanks to its unique encrypted data payloads, BlocPal at launch time allows users to pay in any of four cryptocurrencies (BTC, BCH, LTC or ETH) and two fiat currencies (USD and CAD).

Using the BlocPal wallet app, now available on both the Google Play and iTunes app stores, consumers can pay in the currency of their choice without bothersome delays, while merchants receive guaranteed payouts at a fraction of the cost of working with credit cards. The company's merchant solution makes paying as easy as snapping a photo of an instantly generated QR Code. All pieces of this solution will be showcased in a real world setting at the Monster Security Token event.

“With the BlocPal wallet you can buy a beer or pay your rent with the cryptocurrency of your choice starting today.” stated Mellios. “Our team of 12 expert developers has been working on this solution for months and we're thrilled to be presenting the live platform today at World Crypto Con. Come join us in the celebration!”
