Edward Logan offers preventative and general dentistry along with cosmetic care.

A leading O'Fallon MO dentist has announced he can provide local patients with high quality, friendly service. Edward Logan offers preventative and general dentistry.

([Newswire.net](#) -- November 3, 2018) -- Edward M Logan of O'Fallon Family & Cosmetic Dentistry has announced he can provide patients around O'Fallon, MO with high quality, friendly and professional preventative and general dentistry. The practice offers a full range of general and cosmetic dentistry services and treats patients of every age.

More information can be found at: <https://doclogan.com>.

O'Fallon dentist Edward M Logan prides himself on his high quality service and commitment to excellent patient care. He knows that looking for a new dentist can bring up feelings of stress and dental anxiety, and he strives to alleviate these concerns.

From the patient's first phone call through to the visit itself, the team at the O'Fallon dental practice makes every effort to ensure that patients have a great experience.

This means that whether patients need a simple checkup or routine cleaning, or something more extensive like surgery, they know they'll get the best service with Dr Edward Logan.

Dr Logan has a reputation for friendly service, and always listening to patients' concerns. He and his staff offer state of the art dental care with compassion and dedication.

It's this commitment to providing the highest level of care in a friendly environment that separates the O'Fallon dentist from others in the area.

The team states, "We understand that the dental office is not among people's favorite places to visit and that dentistry can elicit feelings of great anxiety in many patients."

They add, "Our dentists and staff will always strive to make your visit to the dentist as comfortable and convenient as possible."

A full list of services is provided on the practice website, and includes general services like dental exams, digital X-Rays, dental cleanings, and fluoride treatments.

Other options include tooth colored fillings, gold crowns, bridges, dentures, and cosmetic services like veneers, contouring, bonding, teeth whitening, and more.

Dr Edward Logan is passionate about his work and ensures that every patient will be proud to show off their smile after their procedures.

Interested parties can find out more on the URL above or by getting in touch at 636-561-5445.
