([Newswire.net](http://Newswire.net) -- March 13, 2019) -- A new email marketing and digital marketing course has been launched by Top Internet Marketing Strategies. It is designed to help both beginners and experienced marketers succeed online.

Top Internet Marketing Strategies has launched a new internet marketing course aimed at helping entrepreneurs and business owners to succeed online. Called "7 Figure Formula", it is specifically designed to provide detailed training for email marketing and how it can help people grow their business.

More information can be found at: <http://topinternetmarketingstrategies.com>

The site explains that the course not only provides detailed training on email marketing, but also comes with bonus training modules that teach online marketing.

Subjects include how to use Facebook and YouTube to generate leads and visitors, and how to increase sales through varied marketing approaches.

In addition to this, participants will get access to a site structure template that focuses the user journey and is designed to create more sales. This is ideal for students who want to get started as quickly as possible and don't want to worry about site setup.

While the course is designed with beginners in mind, it also teaches advanced strategies that can help people who are already building an online business. The subjects covered can help people to improve their success rate and take their business to the next level.

Email marketing is one of the most powerful, engaging and beneficial forms of marketing available to business owners today. For one thing, it is relatively low cost compared to other forms of marketing.

In addition to this, it allows people to reach an already engaged audience, and deliver highly targeted messages or promotions to them. This makes them more likely to open and engage with the content, bringing in more revenue.

Top Internet Marketing Strategies states: "This course has been months in the making. It took so long to create because myself and my co-creator wanted to make sure that we were providing all of the training and tools needed to build a successful online business."
